- Material: Aluminum Alloy
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Column: 2.5mm-5.0mm
- Beam: 2.0mm-3.0mm

Product Description

Product Description:

One of the best features of the Glass Curtain Wall is the availability of customized design options. This means that you can choose from a wide range of patterns and designs to match the aesthetic of your building. This feature makes the Glass Curtain Wall an ideal choice for architects and designers who want to create a unique and modern look for their building.

The Glass Curtain Wall is designed to be durable and long-lasting. The panel thickness ranges from 1.4mm to 5.0mm ensuring high-quality construction. This thickness ensures that the Glass Curtain Wall can withstand harsh weather conditions and is resistant to cracks and breakages.

The thermal insulation feature of the Glass Curtain Wall ensures that the building remains warm during winters and cool during summers. This feature not only adds to the comfort of the building occupants but also helps in reducing energy costs.

The soundproofing feature of the Glass Curtain Wall ensures that the building remains quiet and peaceful. This feature is especially important for buildings located in busy and noisy areas. The Glass Curtain Wall provides a peaceful environment for the occupants of the building.

The Glass Curtain Wall also allows for the adjustment of light as per the requirement. This feature is especially useful in buildings where the amount of natural light is limited. By adjusting the Glass Curtain Wall, the required amount of light can be let in while maintaining the privacy of the occupants.

In conclusion, the Glass Curtain Wall is a modern and sleek solution for any building. With its customizable design options, durability, thermal insulation, soundproofing, and adjustable light features, the Glass Curtain Wall is the perfect choice for architects and designers who want to create a unique and modern look for their building.

Features:

Product Name: Glass Curtain Wall

Function: Soundproof, Adjust The Light

Aesthetics: Sleek And Modern

Panel Thickness: 1.4~5.0mm
