#### Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m<sup>2</sup>
- Price: 588RMB/m<sup>2</sup>
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

#### Product Specification

- Durability: Long-lasting
- Function: Soundproof ,Adjust The Light
- Aluminium Color: Any Color
- Panel Thickness: 1.4~5.0mm
- Patterns Selection: Customized Design Available
- Protection: Thermal Insulation
- Heat Insulation: Yes
- Advantage: Waterproof, Soundproof, Energy Saving
- Material: Aluminum Alloy
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Beams: 2.0mm-3.0mm

## Product Description

### Product Description:

The Glass Curtain Wall is an advantageous product because of its waterproof, soundproof, and energy-saving features. These attributes make it an ideal choice for buildings that require a high level of protection from external elements. The soundproofing feature ensures that noise from the outside is reduced to a minimum, making it perfect for buildings located in busy areas.

The Glass Curtain Wall panel thickness ranges from 1.4mm to 5.0mm, making it suitable for different building designs. The thickness of the panel also contributes to the product's durability, ensuring that it lasts for many years without any significant wear and tear. This attribute makes it a cost-effective option for building owners who want a product that requires minimal maintenance.

Another advantage of the Glass Curtain Wall is the option to customize the design based on the building's requirements. This feature makes it possible for designers to create unique patterns that are both functional and aesthetically pleasing. The customization feature also ensures that the Glass Curtain Wall fits perfectly into the building's overall design.

The Glass Curtain Wall is an excellent choice for building owners who want to leverage the benefits of natural light while ensuring the safety and comfort of occupants. The product's light adjustment feature allows building occupants to control the amount of light that enters the building, reducing glare and heat while still enjoying the benefits of natural light.

In summary, the Glass Curtain Wall is a product that offers soundproofing and light adjustment functions, is long-lasting and durable, and has several advantages such as being waterproof, soundproof, and energy-saving. It has a panel thickness range of 1.4mm to 5.0mm and offers the option of customized design patterns. Overall, the Glass Curtain Wall is an excellent choice for building owners who want a product that is both functional and aesthetically pleasing.

### Features:

Product Name: Glass Curtain Wall

Protection: Thermal Insulation

Patterns Selection: Customized Design Available

Panel Thickness: 1.4~5.0mm

Function: Soundproof, Adjust The Light

Aluminium Color: Any Color

### Applications:

The Glass Curtain Wall is a versatile product that can be used in a variety of application occasions and scenarios. Firstly, it is an excellent solution for commercial buildings, such as offices, malls, and hotels. The transparent glass panels provide a sleek and modern look while also offering thermal insulation to keep the building cool during hot summer days.

Another application scenario for the Glass Curtain Wall is in residential buildings. The glass panels can be customized to fit any design, making it an ideal choice for modern homes. The heat insulation feature of the glass panels will also help homeowners save on energy bills, making it a cost-effective solution in the long run.

In addition, the Glass Curtain Wall is also suitable for industrial buildings, such as factories and warehouses. The thermal insulation feature of the glass panels will help regulate the temperature inside the building, creating a comfortable work environment for employees. Guangdong SuperHuge's Glass Curtain Wall also comes with customizable design options, allowing customers to choose from a variety of patterns. The aluminum color can also be customized to match the building's exterior design.

The Glass Curtain Wall is delivered in wooden boxes and has a delivery time of 20-60 workdays. Payment terms are T/T. The product is an excellent investment for any construction project that requires a durable, long-lasting, and heat-insulated protection system.
