

Aluminium Glass Curtain Wall Glass Curtain Wall Panels - Sleek Aesthetics

Our Product Introduction

for more products please visit us on glass-curtainwall.com

Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 588RMB/m²
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Aesthetics: Sleek And Modern
- Durability: Long-lasting
- Protection: Thermal Insulation
- Panel Thickness: 1.4~5.0mm
- Function: Soundproof ,Adjust The Light
- Advantage: Waterproof, Soundproof, Energy Saving
- Heat Insulation: Yes
- Aluminium Color: Any Color
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass

Product Description

Product Description:

The Glass Curtain Wall is designed to provide protection against thermal insulation. This is achieved through the use of high-quality materials that are designed to prevent heat transfer. As a result, the building is kept warm in the winter and cool in the summer, which can lead to significant energy savings.

In addition to thermal insulation, the Glass Curtain Wall is also waterproof, soundproof, and energy-saving. It is an excellent choice for buildings that are located in areas with high levels of rainfall or noise pollution. The Glass Curtain Wall is designed to provide a comfortable and quiet environment for building occupants.

The Glass Curtain Wall is also designed to adjust the light that enters the building. This is achieved through the use of special glass that is designed to reflect or absorb light. This can help to create a comfortable and productive environment for building occupants.

The Glass Curtain Wall is a long-lasting product that is designed to withstand the elements. It is made from high-quality materials that are designed to resist corrosion and damage. As a result, the Glass Curtain Wall is an excellent choice for buildings that are located in areas with harsh environmental conditions.

In conclusion, the Glass Curtain Wall is an innovative product that provides excellent protection against thermal insulation. It is waterproof, soundproof, and energy-saving, making it an excellent choice for modern buildings. The Glass Curtain Wall is also designed to adjust the light that enters the building, creating a comfortable and productive environment for building occupants. Finally, the Glass Curtain Wall is a durable product that is designed to last for many years, even in harsh environmental conditions.

Features:

Product Name: Glass Curtain Wall

Function: Soundproof, Adjust The Light

Protection: Thermal Insulation

Heat Insulation: Yes

Panel Thickness: 1.4~5.0mm

Aluminium Color: Any Color

Applications:

Product Application Occasions and Scenarios for the Glass Curtain Wall

Brand Name: GuangdongSuperHuge

Model Number: MQ

Place of Origin: China

Minimum Order Quantity: 100m²

Price: 580RMB

Packaging Details: Wooden Box

Delivery Time: 20-60 work days

Payment Terms: T/T

Aluminium Color: Any Color

Function: Soundproof, Adjust The Light

Advantage: Waterproof, Soundproof, Energy Saving

Panel Thickness: 1.4~5.0mm

Patterns Selection: Customized Design Available

Glass Curtain Wall is an innovative and stylish solution for modern architecture. It is made of high-quality glass panels and an aluminum frame, which makes it durable and long-lasting. The Glass Curtain Wall is perfect for a wide range of applications and scenarios, including:

Commercial buildings

Residential buildings

Hospitals

Schools

Hotels

Shopping centers

Government buildings

The Glass Curtain Wall can be used in both interior and exterior applications. It provides an elegant and modern look to any building, while also providing functional benefits such as soundproofing and light adjustment. The Glass Curtain Wall is also waterproof, which makes it perfect for areas with high humidity and precipitation.

One of the main advantages of the Glass Curtain Wall is its energy-saving properties. The Glass Curtain Wall reduces the amount of heat transfer between the interior and exterior of a building, which results in lower energy costs. This makes it a popular choice for environmentally-conscious architects and builders.

The Glass Curtain Wall is available in a wide range of panel thicknesses, from 1.4mm to 5.0mm. This allows architects and builders to choose the right thickness for their specific application. The Glass Curtain Wall also comes in a variety of aluminum colors, which allows it to be customized to match the design of any building.

Overall, the Glass Curtain Wall is a versatile and functional solution for modern architecture. Its innovative design, functional benefits, and energy-saving properties make it a popular choice for architects and builders around the world.
