Product Description

Product Description:

Our Aluminum Curtain Wall is a type of metal ceiling that is both functional and aesthetically pleasing. It is perfect for commercial buildings, offices, and other large-scale structures. With a lead time of 15-20 days, we guarantee timely delivery of your orders. One of the standout features of our Aluminum Curtain Wall product is its excellent thermal insulation. This makes it a perfect choice for buildings that require energy efficiency. The insulation helps to regulate the temperature inside the building, reducing the need for heating or cooling systems which can be costly in the long run.

The durability of our Aluminum Curtain Wall is unmatched. Made from high-quality aluminium sheet, it is resistant to wear and tear, and can withstand the elements without losing its structural integrity. This makes it an ideal choice for buildings that are exposed to harsh weather conditions, such as wind, rain, and snow.

We understand the importance of proper packaging, which is why we offer free wrapping in shrink polythene. This ensures that your orders are protected from damage during transportation and arrive at your doorstep in excellent condition.

In summary, our Aluminum Curtain Wall product is a high-quality solution for your building needs. It is durable, long-lasting, and provides excellent thermal insulation. With a lead time of 15-20 days, you can trust us to deliver your orders on time. Plus, our free shrink polythene packaging ensures that your orders arrive in perfect condition.

Features:

Product Name: Aluminum Curtain Wall

Sound Insulation: Good

Durability: Long-lasting

Product Type: Aluminum Curtain Wall

Color: Color Customization

Weather Resistance: High

Technical Parameters:

Product	Aluminum Curtain Wall
Raw Material	Aluminum Alloy
Sound Insulation	Good
Width	≤1500mm
Color	Color Customization
Design Style	Modern
Durability	Long-lasting
Weather Resistance	High

Applications:

The aluminum curtain wall is a type of curtain wall that is made of broken bridge aluminum and is designed to provide a modern and stylish look to buildings. It is a popular choice for commercial and residential buildings, as well as for public spaces such as airports, train stations and shopping malls. The MQ model has a maximum width of 1500mm, making it an ideal choice for large buildings that require a seamless and sleek look.

The product is suitable for a variety of occasions and scenarios, including:

Office Buildings: The modern design of the aluminum curtain wall makes it a popular choice for office buildings. The sleek and seamless look provides a professional and sophisticated appearance that is often desired in the corporate world.

Residential Buildings: The MQ model is also suitable for residential buildings. The contemporary design of the curtain wall creates a stylish and elegant look that can enhance the overall appearance of the building.

Public Spaces: The aluminum curtain wall is also commonly used in public spaces such as airports, train stations and shopping malls. The durability and long-lasting nature of the product make it ideal for high-traffic areas that require a sturdy and reliable construction.

Industrial Buildings: The MQ model can also be used in industrial buildings. The metal ceilings and rectangular shape of the product make it a suitable choice for warehouses and factories.

The broken bridge aluminum curtain wall is a popular choice in the construction industry due to its durability, long-lasting nature and modern design. The GuangdongSuperHuge MQ model is a top-quality product that is made in China and is suitable for a wide range of applications. Whether you are constructing an office building, residential building, public space or industrial building, the MQ model is an excellent choice for your construction needs.

Packing and Shipping:

Product Packaging:

Aluminum curtain wall panels are packaged in wooden crates to ensure safe transportation.

The panels are wrapped in foam and plastic to prevent scratches and damage during shipping.

The crates are labeled with the product name, quantity, and handling instructions.

Shipping:

Shipping is done through a trusted logistics partner to ensure timely delivery and safe transportation.

The shipping cost will be calculated based on the destination and quantity of the order.

Customers will be provided with a tracking number to monitor the status of their shipment.

Please inspect the package upon delivery and report any damages or discrepancies to our customer service team.
