#### Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m<sup>2</sup>
- Price: 588RMB/m<sup>2</sup>
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

#### Product Specification

- Packing: Free Wrapped In Shrink Polythene
- Lead Time: 15-20days
- Ceiling Tile Type: Metal Ceilings
- Product: Aluminum Curtain Wall
- Width: ≤1500mm
- Weather Resistance: High
- Color: Color Customization
- Type: Curtain Wall
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass
- Glass: Toughened Glass

## Product Description

### Product Description:

The lead time for the Aluminum Curtain Wall product is 15-20 days which makes it a great option for projects with a tight deadline. The rectangular shape of the curtain wall adds a clean and modern look to any building design. This curtain wall is designed to be an open frame curtain wall which allows for more natural light to enter the building. The open frame design also provides a feeling of spaciousness and can create a visually stunning effect. The Aluminum Curtain Wall is made of high-quality aluminum which makes it a durable and long-lasting option. The aluminum material also ensures that the curtain wall is lightweight which makes it easy to install and handle during the construction process. If you are looking for a modern and efficient curtain wall, the Aluminum Curtain Wall is the perfect option. Its excellent thermal insulation properties make it an energy-efficient choice for any building. Overall, the Aluminum Curtain Wall is a great addition to any building project. Its modern design, excellent thermal insulation, and durability make it a top choice for architects and builders.

Features:  
Curtain Wall design  
Constructed with Aluminium sheet  
Open frame curtain wall

### Technical Parameters:

Technical Parameters	Product Attributes
Packing	Free Wrapped In Shrink Polythene
Lead Time	15-20 days
Shape	Rectangle
Sound Insulation	Good
Thermal Insulation	Excellent
Weather Resistance	High
Durability	Long-lasting
Color	Color Customization
Ceiling Tile Type	Metal Ceilings
Raw Material	Aluminum Alloy

### Applications:

The curtain wall is a type of building envelope that is designed to protect the building from external elements such as wind, rain, and sunlight. The curtain wall is an essential part of modern architecture, as it enhances the aesthetic appeal of the building and provides energy-saving benefits.

The MQ Aluminum Curtain Wall is perfect for modern building designs, as its sleek and modern look complements the building's overall aesthetic. The curtain wall is available in different colors and designs, making it suitable for both residential and commercial buildings.

The broken bridge aluminum curtain wall is an innovative design that provides excellent thermal insulation and sound insulation. This design features a thermal break that separates the outer and inner aluminum frames, which helps to reduce thermal conductivity and noise transmission. This feature makes the broken bridge aluminum curtain wall ideal for buildings situated in noisy or high-traffic areas.

The MQ Aluminum Curtain Wall is also an excellent choice for buildings that require good sound insulation. The curtain wall's design helps to reduce noise from the outside environment, making it an ideal choice for buildings such as hospitals, schools, and offices.

The Aluminium sheet used in the MQ Aluminum Curtain Wall is of high quality, ensuring that the curtain wall is long-lasting and resistant to corrosion. This feature makes the curtain wall ideal for buildings located in coastal or humid areas.

The MQ Aluminum Curtain Wall is also suitable for metal ceiling applications. The ceiling tile type of the curtain wall is metal ceilings, which provides a sleek and modern look to the building's interior. This feature makes the curtain wall suitable for commercial buildings such as shopping malls, hotels, and airports.

In summary, the GuangdongSuperHuge's MQ Aluminum Curtain Wall is a versatile and durable product that is suitable for various building designs and applications. Its long-lasting durability, good sound insulation, and high weather resistance make it an ideal choice for both residential and commercial buildings.
