Product Description:

One of the key features of our Glass Curtain Wall is its ability to adjust lighting. This is an essential feature for those who want to create a comfortable atmosphere throughout the day while maintaining privacy. The Glass Curtain Wall is perfect for this as it can be adjusted to let in more or less light depending on the time of day or your preference. The Glass Curtain Wall is also available in any aluminum color, meaning you can choose the perfect color to match your building or office decor.

Our Glass Curtain Wall also offers a range of pattern selection options to choose from. We understand that every building is unique and that is why we offer customized designs to match your specific requirements. Our team of professionals will work closely with you to create the perfect pattern that will complement your building's design and architecture.

The panel thickness of our Glass Curtain Wall ranges from 1.4mm to 5.0mm. We offer a range of panel thicknesses to ensure that our product meets the specific requirements of your building. The thickness of the panel also plays a crucial role in the durability of the Glass Curtain Wall. Our Glass Curtain Wall is designed to withstand even the toughest weather conditions and maintain its excellent performance over time.

The Glass Curtain Wall also offers excellent heat insulation. This feature ensures that your building or office remains at a comfortable temperature regardless of the weather outside. The Glass Curtain Wall is perfect for those looking to reduce their energy costs as it can significantly reduce the amount of energy needed to heat or cool a building.

Overall, the Glass Curtain Wall is a high-quality product that offers a range of features designed to meet the specific requirements of any building or office. With its soundproofing capabilities, adjustable lighting, customized patterns, range of panel thicknesses, and excellent heat insulation, the Glass Curtain Wall is the perfect solution for any modern building or office. So why wait? Contact us today to learn more about our Glass Curtain Wall and how it can be customized to meet your specific requirements.

Applications:

GuangdongSuperHuge's MQ Glass Curtain Wall is a sleek and modern architectural feature that is perfect for a variety of different applications. From high-rise office buildings to luxury hotels and resorts, this product is an excellent choice for anyone looking to create a stunning and functional façade.

One of the key advantages of the MQ Glass Curtain Wall is its ability to provide soundproofing for buildings located in noisy urban environments. This makes it an ideal solution for office buildings situated on busy streets or near airports or train stations.

The MQ Glass Curtain Wall also has the ability to adjust the amount of light that enters a building, making it a great choice for hotels and resorts that want to provide their guests with stunning views while still maintaining privacy and comfort. Customized designs are available, allowing customers to choose from a wide range of patterns and colors to create a look that perfectly fits their needs.

In addition to its aesthetic benefits, the MQ Glass Curtain Wall is also highly functional. It is waterproof and energy-saving, making it an excellent choice for buildings located in areas with harsh weather conditions. The product is CE and ISO certified, ensuring that it meets high quality standards, and it comes packaged in a sturdy wooden box to ensure safe delivery.

Customers can order the MQ Glass Curtain Wall in any quantity over 100m², with a price of 580RMB per square meter. Delivery times vary between 20 and 60 work days, and payment terms are T/T. Whether you are looking to create a stunning façade for a new building or simply want to upgrade an existing one, the MQ Glass Curtain Wall is an excellent choice for anyone looking for a high-quality, functional, and beautiful product.

Customization:

Support and Services:

The Glass Curtain Wall product is supported by our technical team who are available to assist with any questions or concerns regarding product installation, maintenance, and repair. Our team can provide technical support through phone or email correspondence, as well as on-site consultations.

In addition to technical support, we offer a range of services to ensure the optimal performance and longevity of the Glass Curtain Wall product. Our services include regular inspections and maintenance, replacement of damaged or worn components, and upgrades to improve energy efficiency and aesthetics.

Packing and Shipping:

Product Packaging:

The Glass Curtain Wall product will be carefully packaged in a wooden crate to ensure its safe transportation. The crate will be sealed with strong adhesive tape and clearly labeled with the product information and handling instructions.

Shipping:

The Glass Curtain Wall product will be shipped via trucking company to the address provided by the customer. The shipping cost will be calculated based on the distance and weight of the product. The estimated delivery time will be provided to the customer upon placing the order. It is advised that the customer inspect the product upon delivery for any damages or defects.
