- Material: Aluminum Alloy
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Beams: 2.0mm-3.0mm

Product Description

Product Description:

One of the key features of the Glass Curtain Wall is its ability to provide excellent soundproofing capabilities, making it an ideal solution for buildings located in noisy environments. The glass panels are designed to block out external noise, ensuring that occupants of the building can enjoy a peaceful and productive environment.

The Glass Curtain Wall is also designed to allow for the adjustment of light transmission through the glass panels. This is achieved through the use of advanced technology that allows for the control of the amount of light that passes through the glass. This makes it an ideal solution for buildings that require varying levels of natural light throughout the day.

In addition to its functional attributes, the Glass Curtain Wall is also highly customizable in terms of aesthetics. With a wide range of patterns available, customers can choose a design that complements the style of their building. The customization options also extend to the aluminum color, which can be matched to any color scheme that the customer desires.

The Glass Curtain Wall is available in a range of panel thicknesses, from 1.4 to 5.0mm. This allows customers to choose a thickness that is appropriate for their particular application, whether it is a high-rise office building or a low-rise residential complex.

Overall, the Glass Curtain Wall is a versatile and functional architectural solution that provides excellent soundproofing capabilities and the ability to adjust the light transmission through the glass panels. Its sleek and modern design makes it a popular choice for modern buildings, and its customization options ensure that customers can choose a design that complements the style of their building.

Features:

Product Name: Glass Curtain Wall

Function: Soundproof, Adjust The Light

Durability: Long-lasting

Heat Insulation: Yes

Advantage: Waterproof, Soundproof, Energy Saving

Panel Thickness: 1.4~5.0mm

Applications:

GuangdongSuperHuge's MQ Glass Curtain Wall is a versatile product that can be used in various occasions and scenarios. Its certification of CE and ISO confirms its quality and reliability. The minimum order quantity for this product is 100m² and the price is 580RMB. It is made in China and the delivery time ranges from 20-60 work days.

The Glass Curtain Wall is an ideal product for commercial buildings, such as office buildings, shopping malls, and hotels. Its sleek and modern design adds a touch of elegance to the building's exterior. It is also a great option for residential buildings that require a modern and stylish look. The Glass Curtain Wall is customizable, allowing for a variety of pattern selections to fit any design scheme.

The Glass Curtain Wall is designed to provide soundproofing, making it perfect for buildings located in busy areas with high levels of noise pollution. It can also adjust the light, making it ideal for buildings that require natural light without sacrificing energy efficiency. The Glass Curtain Wall provides heat insulation, helping to reduce energy costs and make buildings more environmentally friendly.

One of the main advantages of the Glass Curtain Wall is its durability. It is long-lasting and can withstand harsh weather conditions, making it ideal for buildings located in areas with extreme weather. The Glass Curtain Wall is waterproof, ensuring that it remains in good condition even during heavy rain or storms. It is also energy-saving, helping to reduce energy costs and making buildings more environmentally friendly.

The Glass Curtain Wall is packaged in a wooden box for safe transportation and easy handling. Payment terms are T/T.

In summary, GuangdongSuperHuge's MQ Glass Curtain Wall is a versatile and high-quality product that is perfect for commercial and residential buildings. Its durability, energy-saving properties, and soundproofing capabilities make it an excellent choice for buildings located in busy areas. The customizable design allows for personalized patterns that fit any design scheme. Order now to experience the benefits of the Glass Curtain Wall.
