- Type: Curtain Wall
- Width: ≤1500mm
- Ceiling Tile Type: Metal Ceilings
- Thermal Insulation: Excellent
- Lead Time: 15-20days
- Raw Material: Aluminum Alloy
- Material: Aluminum Alloy
- Material: Aluminum Alloy
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Beam: 2.0mm-3.0mm

Product Description

Product Description:

The Aluminum Curtain Wall product is also highly durable, ensuring that your building will maintain its attractive appearance for many years to come. The curtain wall is built to withstand harsh weather conditions and other external factors, providing a long-lasting solution for your building needs. With this product, you can be sure that your building will look great and remain functional for years to come.

The Aluminum Curtain Wall product is available in different sizes, with a maximum width of $\leq 1500\text{mm}$. This ensures that you can choose the right size for your building, depending on your specific needs. Whether you need a small or large curtain wall, this product can accommodate your requirements.

The Aluminum Curtain Wall product comes wrapped in shrink polythene, making it easy to transport and install. The packaging ensures that the curtain wall is protected from damage during transportation, ensuring that it arrives at your site in perfect condition.

Our Aluminum Curtain Wall product comes in two different types: the open frame curtain wall and the hidden frame curtain wall. The open frame curtain wall is a modern and contemporary option, perfect for buildings that require a sleek and minimalist look. This type of curtain wall is designed to be visible from the exterior of the building, providing a unique and eye-catching look. On the other hand, the hidden frame curtain wall is a more traditional option, perfect for buildings that require a more classic and timeless look. This type of curtain wall is designed to be hidden from view, providing a seamless and elegant appearance.

In conclusion, our Aluminum Curtain Wall product is an excellent choice for modern buildings that require a durable and long-lasting solution. With its sound insulation feature, it provides a peaceful and quiet environment, ensuring that the building's inhabitants can enjoy a comfortable and relaxing space. The product is available in different sizes, ensuring that you can choose the right size for your specific needs. The product also comes wrapped in shrink polythene, making it easy to transport and install. With its two different types - the open frame curtain wall and the hidden frame curtain wall - you can choose the right type for your building's specific style and aesthetic.

Features:

Product Name: Aluminum Curtain Wall

Design Style: Modern

Applications:

One of the most common applications for an aluminum curtain wall is in commercial buildings such as office complexes, retail stores, and hotels. These buildings require a modern and sleek design that is both functional and visually appealing. The MQ aluminum curtain wall is the perfect solution, with its modern design style and hidden frame curtain wall that provides a clean, seamless look.

Another great application for the MQ aluminum curtain wall is in high-rise residential buildings. These buildings require a durable and long-lasting solution that can withstand the harsh elements and provide sound insulation for the comfort of the residents. The MQ aluminum curtain wall meets all of these requirements and more, making it the ideal choice for any high-rise residential building.

For buildings in noisy environments, such as those located near airports or busy highways, the MQ aluminum curtain wall provides excellent sound insulation. The metal ceilings of the curtain wall help to absorb and dampen sound, creating a more peaceful and comfortable environment for those inside the building.

Overall, the GuangdongSuperHuge MQ Aluminum Curtain Wall is an excellent product for a wide range of application occasions and

scenarios. Whether you are looking for a modern and sleek design for your commercial building or a durable and long-lasting solution for your high-rise residential building, the MQ aluminum curtain wall is the perfect choice.
