- Minimum Order Quantity: 100m<sup>2</sup>
- Price: 588RMB/m<sup>2</sup>
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

#### Product Specification

- Protection: Thermal Insulation
- Heat Insulation: Yes
- Advantage: Waterproof, Soundproof, Energy Saving
- Function: Soundproof ,Adjust The Light
- Durability: Long-lasting
- Aluminium Color: Any Color
- Patterns Selection: Customized Design Available
- Panel Thickness: 1.4~5.0mm
- Material: Aluminum Alloy
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass

## Product Description

### Product Description:

One of the key advantages of the Glass Curtain Wall is its waterproof properties. This product is designed to withstand even the harshest weather conditions, ensuring that your building remains protected from water damage. The soundproof properties of the Glass Curtain Wall are also impressive, ensuring that noise pollution is kept to a minimum. This makes it an ideal solution for buildings located in noisy areas, such as busy city centers or near airports.

The Glass Curtain Wall is also highly energy-efficient, helping to reduce energy costs and carbon emissions. The panel thickness of the Glass Curtain Wall ranges from 1.4 to 5.0mm, ensuring that it provides excellent thermal insulation. This means that the building's heating and cooling systems don't have to work as hard, resulting in lower energy bills and a more sustainable building.

Another great feature of the Glass Curtain Wall is its customizability. Patterns can be selected to create a unique and modern look that reflects the design of the building. The Glass Curtain Wall can also be customized to match any aluminum color, ensuring that it perfectly complements the building's design. This makes it an ideal choice for architects and designers who want to create a building that stands out.

The Glass Curtain Wall also offers exceptional aesthetics. Its sleek and modern design will enhance the look of any building, making it look more modern and stylish. This makes it a popular choice for commercial buildings, such as offices, hotels, and shopping centers, as well as residential buildings. The Glass Curtain Wall is also easy to clean and maintain, ensuring that it looks great for years to come. In conclusion, the Glass Curtain Wall is a high-performance, customizable, and aesthetically pleasing architectural solution that offers a wide range of benefits. Its waterproof, soundproof, and energy-saving properties, combined with its customizability and sleek design, make it an ideal choice for any building. Whether you're designing a commercial or residential building, the Glass Curtain Wall is the perfect choice for a modern and stylish look.

### Features:

Product Name: Glass Curtain Wall

Aesthetics: Sleek And Modern

Function: Soundproof, Adjust The Light

Patterns Selection: Customized Design Available

Heat Insulation: Yes

Panel Thickness: 1.4~5.0mm

### Technical Parameters:

Glass Curtain Wall	Technical Parameters
Heat Insulation	Yes
Panel Thickness	1.4~5.0mm
Advantage	Waterproof, Soundproof, Energy Saving
Aesthetics	Sleek And Modern
Aluminium Color	Any Color
Function	Soundproof ,Adjust The Light
Patterns Selection	Customized Design Available
Protection	Thermal Insulation
Durability	Long-lasting

### Applications:

The MQ Glass Curtain Wall is a versatile product that can be used in a variety of occasions and scenarios. Its customizable design allows for patterns selection, ensuring that the product fits perfectly with the design of the building. The aluminium color can also be customized to any color, making it easy to match with the building's color scheme.

The MQ Glass Curtain Wall has many advantages, including being waterproof, soundproof, and energy-saving. Its soundproof feature is especially useful for buildings located in busy areas, providing a quiet and peaceful environment for the occupants. Its energy-saving feature helps to reduce energy consumption, making it an eco-friendly choice.

The MQ Glass Curtain Wall has a panel thickness range of 1.4~5.0mm, providing a sturdy and durable barrier against external elements. Its ability to adjust the light allows for customizable lighting, creating a comfortable and visually appealing environment.

The MQ Glass Curtain Wall is packaged in wooden boxes and has a delivery time of 20-60 working days. Payment can be made via T/T. Whether you are looking for a product for your office building, hotel, or residential complex, the MQ Glass Curtain Wall is the perfect choice.
