- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass

Product Description

Product Description:

The Glass Curtain Wall has been designed to protect against thermal insulation, making it ideal for areas where temperature control is essential. This feature ensures that the building's interior remains comfortable and energy-efficient, all year round. One of the most significant benefits of the Glass Curtain Wall is its heat insulation capability. This feature helps keep the building's interior warm in cold weather and cool in hot weather, thereby lowering energy costs and reducing the carbon footprint. The Glass Curtain Wall comes in various aluminum colors, allowing architects and building owners to choose any color that suits their design needs. This feature ensures that the Glass Curtain Wall seamlessly integrates with the building's exterior design, making it an integral part of the overall look and feel. Besides its functionality, the Glass Curtain Wall also adds to the building's aesthetics. Its sleek and modern design creates a visually appealing look that enhances the building's beauty. The Glass Curtain Wall's minimalist design allows it to be used in various building types, from commercial buildings to residential complexes. In conclusion, the Glass Curtain Wall is a perfect combination of functionality and beauty. Its heat insulation capabilities, thermal insulation protection, and customizable aluminum colors make it an ideal choice for architects and building owners looking to add a modern touch to their buildings. Its sleek and modern design ensures that it remains an integral part of the building's overall aesthetics, while also providing excellent protection and insulation.

Applications:

MQ Glass Curtain Wall is a versatile product that can be used in various occasions and scenarios. It is perfect for commercial and residential buildings, as well as for public spaces, such as airports, train stations, museums, and shopping malls. With its sleek and modern aesthetic, it adds value to the overall design of the building, making it more attractive and eye-catching. MQ Glass Curtain Wall is also highly functional, providing soundproofing and the ability to adjust the light entering the building. This makes it perfect for buildings that require a quiet and peaceful environment, such as hospitals, schools, and offices. The ability to adjust the light also helps in creating a comfortable and pleasant atmosphere inside the building, enhancing the experience of the occupants. MQ Glass Curtain Wall comes in various patterns that can be customized according to the design and preferences of the client. This allows for a more personalized and unique touch to the building, making it stand out from the rest. GuangdongSuperHuge requires a minimum order quantity of 100m² for its MQ Glass Curtain Wall, which is priced at 580RMB per unit. The product is packaged in a wooden box for safe transportation, and delivery time ranges from 20-60 work days. Payment terms are T/T, making it easy and convenient for clients to purchase the product.
