- Glass: Toughened Glass

## Product Description

### Product Description:

The Glass Curtain Wall is designed to provide both aesthetics and functionality. It is sleek and modern in appearance, which makes it an ideal choice for any building that wants to make a statement. The product is available in a wide range of patterns and designs, which means that you can customize it to your specific needs and requirements. This customized design option ensures that your Glass Curtain Wall will blend seamlessly with the rest of your building's design and architecture.

The Glass Curtain Wall has a number of functions that make it an excellent choice for any building. It is soundproof, which means that it can help to reduce noise pollution from outside. This is particularly important for buildings that are located in busy urban areas. The Glass Curtain Wall also allows you to adjust the amount of light that enters your building. This is ideal for buildings that require a high level of natural light, such as offices or retail spaces.

The Glass Curtain Wall has a panel thickness of 1.4~5.0mm, which makes it both durable and lightweight. This thickness ensures that the product can withstand harsh weather conditions, including strong winds and heavy rain. The Glass Curtain Wall is also resistant to scratches and other types of damage, which means that it will maintain its sleek and modern appearance for many years to come. Overall, the Glass Curtain Wall is an excellent product for any building that wants to achieve a modern, sleek, and functional design. Its durable construction, customized design options, and soundproof and light-adjusting functions make it an ideal choice for a wide range of applications. If you are looking for a product that can provide both aesthetics and functionality, then the Glass Curtain Wall is the perfect solution for you.

### Features:

Product Name: Glass Curtain Wall

Heat Insulation: Yes

Function: Soundproof, Adjust The Light

### Applications:

GuangdongSuperHuge's MQ Glass Curtain Wall is a sleek and modern solution for buildings that require a sophisticated look. This product is made in China and has been certified with CE and ISO. The minimum order quantity is 100m<sup>2</sup>, and the price is 580RMB per unit. The packaging details include a wooden box, and the delivery time is between 20-60 working days. Payment terms are T/T.

The MQ Glass Curtain Wall is an excellent choice for buildings that require a modern and stylish exterior. This product is designed to provide heat insulation, which is an essential feature for buildings that need to maintain a comfortable temperature. Additionally, the Glass Curtain Wall can be customized to any aluminum color, allowing it to blend seamlessly into the building's overall design.

One of the most significant advantages of the Glass Curtain Wall is its ability to function as a soundproof barrier. This feature is especially useful for buildings located in noisy areas, such as busy streets or near airports. The Glass Curtain Wall can also adjust the light, allowing for more natural light to enter the building while maintaining privacy.

The Glass Curtain Wall is a durable product that is designed to last for many years. Its long-lasting durability makes it an excellent investment for building owners who want to avoid costly repairs and replacements in the future. Overall, the GuangdongSuperHuge MQ Glass Curtain Wall is an excellent choice for any building that requires a sleek and modern look, heat insulation, soundproofing, and long-lasting durability.
