

Aluminium Glass Curtain Wall with Heat Insulation Waterproof Protection

Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 588RMB/m²
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Aluminium Color: Any Color
- Heat Insulation: Yes
- Panel Thickness: 1.4~5.0mm
- Protection: Thermal Insulation
- Advantage: Waterproof, Soundproof, Energy Saving
- Patterns Selection: Customized Design Available
- Durability: Long-lasting
- Aesthetics: Sleek And Modern
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass

Product Description

Product Description:

Our Glass Curtain Wall comes in a wide range of Aluminum Color options, which means that you can select the perfect color that suits your building's overall design and style. Whether you want a more classic look or a contemporary feel, we have the color options to match your needs.

One of the primary functions of our Glass Curtain Wall is thermal insulation, which makes it ideal for buildings that require energy efficiency. It helps to keep the building warm in the winter and cool in the summer, thus reducing your energy bills and carbon footprint. It's an excellent investment for any building owner who wants to reduce their energy consumption and contribute to a greener environment.

Our Glass Curtain Wall comes in various panel thicknesses ranging from 1.4 to 5.0mm. This range allows you to select the ideal thickness based on the building's location and the environmental factors surrounding it. You can trust that our Glass Curtain Wall will provide adequate protection and durability, no matter the thickness you choose.

If you're looking for a Glass Curtain Wall that offers both soundproofing and light adjustment, then our product is the right choice for you. Its soundproofing capabilities make it ideal for buildings that require minimal noise pollution, such as hospitals, universities, and offices. Additionally, our Glass Curtain Wall allows you to adjust the light entering your building, giving you control over the amount of natural light you need.

We offer customized design options for our Glass Curtain Wall, giving you the option to select from a wide range of patterns. You can choose a design that suits your building's architecture, style, and overall theme. Our team of experts will work with you to ensure that you get a unique design that meets your specific needs.

In conclusion, our Glass Curtain Wall is a top-of-the-line product that offers an excellent combination of functionality and aesthetics. Its thermal insulation, soundproofing, and light adjustment capabilities make it ideal for any building that requires energy efficiency, minimal noise pollution, and natural light control. Contact us today to learn more about our product and how it can benefit your building.

Features:

Product Name: Glass Curtain Wall

Patterns Selection: Customized Design Available

Heat Insulation: Yes

Aesthetics: Sleek And Modern

Protection: Thermal Insulation

Durability: Long-lasting

Technical Parameters:

Product Attribute	Technical Parameter
Glass Curtain Wall	Heat Insulation: Yes
Glass Curtain Wall	Panel Thickness: 1.4~5.0mm
Glass Curtain Wall	Durability: Long-lasting
Glass Curtain Wall	Aluminium Color: Any Color
Glass Curtain Wall	Protection: Thermal Insulation
Glass Curtain Wall	Function: Soundproof, Adjust The Light
Glass Curtain Wall	Patterns Selection: Customized Design Available
Glass Curtain Wall	Aesthetics: Sleek And Modern
Glass Curtain Wall	Advantage: Waterproof, Soundproof, Energy Saving

Applications:

One of the main benefits of the Glass Curtain Wall is its ability to soundproof the space. This feature makes it a great choice for buildings located in busy areas or near highways. Additionally, the Glass Curtain Wall can adjust the light entering the space, providing a comfortable and customizable environment for its users.

Another advantage of the Glass Curtain Wall is its waterproof and energy-saving properties. This makes it ideal for areas that experience high levels of rainfall or extreme temperatures. The heat insulation feature of the Glass Curtain Wall also makes it a great option for cold climates.

The Glass Curtain Wall is available in any color of aluminum and is certified with CE and ISO. The minimum order quantity for this product is 100m² and it is priced at 580RMB. The packaging details include a wooden box, and the delivery time can range from 20-60 work days. Payment terms for the Glass Curtain Wall are T/T.

The Glass Curtain Wall is a perfect choice for buildings such as office buildings, shopping malls, hotels, and apartments. Its versatility allows it to be used in various scenarios, such as creating a modern and sleek look for a building's exterior or as a partition between spaces.

Overall, the Glass Curtain Wall from GuangdongSuperHuge is a high-quality and reliable product that offers a range of benefits and advantages. Its soundproof, energy-saving, and waterproof properties make it a great choice for various application occasions and scenarios.

Our Glass Curtain Wall product comes with comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our team of experts is available to assist with:

Design and engineering support
Installation guidance and supervision
Maintenance and repair services
Performance testing and analysis
Project management and coordination

We are committed to delivering high-quality products and services that meet the needs and expectations of our customers. Contact us for more information and to discuss how we can help with your Glass Curtain Wall project.

Packing and Shipping:

Product Packaging:

The glass panels are securely wrapped with protective materials.

The panels are then placed in wooden crates for added protection during transportation.

The crates are labeled with handling instructions and product information.

Shipping:

The glass curtain wall panels are shipped via a reliable freight carrier.

Shipping fees will be calculated based on the quantity of panels ordered and the shipping distance.

Customers will receive a tracking number to monitor the delivery status of their order.
