- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass

Product Description

Product Description:

One of the key features of the Glass Curtain Wall is the ability to customize the design. This enables you to choose a pattern that best suits your building's aesthetics. You can opt for a simple design or something more intricate to stand out from the competition. The customized design available feature makes the Glass Curtain Wall a versatile product that can fit into any building design.

The Glass Curtain Wall is available in any color, which means that you can choose a color that complements your building's color scheme. This feature ensures that the Glass Curtain Wall blends seamlessly into the overall building design. You can choose a color that matches the building's exterior or interior to create a cohesive look.

The Glass Curtain Wall is a multifunctional product that offers a range of benefits. It is soundproof, which means that it reduces noise pollution from outside the building. This feature is particularly useful for buildings located in noisy areas, such as busy streets or near airports. Additionally, the Glass Curtain Wall can adjust the light, which means that you can control the amount of natural light that enters the building. This feature is beneficial for buildings that require a lot of natural light for energy-saving purposes.

The Glass Curtain Wall is a waterproof product that prevents water from seeping into the building. This feature ensures that the building remains dry even during heavy rain. The Glass Curtain Wall is also soundproof, which means that it reduces noise pollution from outside the building. This feature is particularly useful for buildings located in noisy areas, such as busy streets or near airports. Additionally, the Glass Curtain Wall is energy-saving, which means that it reduces the amount of energy required to light and heat the building.

In summary, the Glass Curtain Wall is a modern architectural feature that provides a stunning visual appeal to any building. It is a long-lasting and durable product that is designed to withstand harsh weather conditions and extreme temperatures. The customized design available feature ensures that the Glass Curtain Wall can fit into any building design. The Glass Curtain Wall is available in any color, ensuring that it blends seamlessly into the building's overall design. The Glass Curtain Wall is a multifunctional product that is soundproof, adjusts the light, waterproof, and energy-saving. These features make the Glass Curtain Wall a versatile and practical choice for any building.

Protection	Thermal Insulation
Heat Insulation	Yes
Durability	Long-lasting
Function	Soundproof, Adjust The Light
Advantage	Waterproof, Soundproof, Energy Saving
Patterns Selection	Customized Design Available

Applications:

GuangdongSuperHuge Glass Curtain Wall (Model Number: MQ) is a modern and sleek product that can be used in various occasions and scenarios. This product is made in China and has obtained CE and ISO certifications, ensuring its quality and safety. The minimum order quantity for this product is 100m², and the price is 580RMB per square meter. The product will be packaged in wooden boxes and delivered within 20-60 work days after payment is received via T/T.

Glass Curtain Wall is an ideal product for buildings that require heat insulation. Its thermal insulation function will help maintain the temperature inside the building, reducing energy consumption and costs. The glass also provides protection against external noise, making it perfect for buildings in busy areas. The product is designed to adjust the amount of light entering the building, providing a comfortable and well-lit environment for the occupants.

The Glass Curtain Wall's sleek and modern design makes it aesthetically pleasing, enhancing the building's appearance. It is a durable product that can withstand harsh weather conditions, ensuring its long-lasting use. This product is an excellent choice for buildings such as office buildings, shopping centers, hotels, and residential buildings.

In summary, GuangdongSuperHuge Glass Curtain Wall (Model Number: MQ) is a top-quality product that provides heat insulation, soundproofing, light adjustment, and protection. It is sleek, modern, durable, and easy to maintain. This product is suitable for many occasions and scenarios and is an excellent choice for anyone looking to enhance their building's appearance and functionality.
