- Beam: 20mm-30mm

Product Description

Product Description:

The Aluminum Curtain Wall is a type of curtain wall that is designed to provide excellent sound insulation. This means that it is perfect for use in buildings where noise pollution is a concern, such as hospitals, schools, and residential buildings.

One of the best things about the Aluminum Curtain Wall is that it has a lead time of only 15-20 days. This means that you can get your curtain wall installed quickly and efficiently, without having to wait for weeks or months for the product to arrive.

Another great feature of the Aluminum Curtain Wall is that it comes with free packaging. The product is wrapped in shrink polythene, which helps to protect it during transport and delivery. This means that you can be sure that your product will arrive in perfect condition, ready for installation.

If you are looking for a high-quality curtain wall solution for your commercial or residential building, then the Aluminum Curtain Wall is the perfect choice. With its excellent sound insulation, quick lead time, and free packaging, this product is sure to meet all of your needs.

Features:

Product Name: Aluminum Curtain Wall

Thermal Insulation: Excellent

Width: ≤1500mm

Durability: Long-lasting

Material: Aluminum Alloy

Sound Insulation: Good

This Aluminum Curtain Wall product is an excellent choice for your building's facade. With its thermal insulation, it can help keep your building warm during the cold season. The width of the curtain wall is ≤1500mm, which is perfect for most building designs. The durability of the product is long-lasting, ensuring that your building will look great for years to come. Made with aluminum alloy material, this curtain wall is both lightweight and strong. The sound insulation of the curtain wall is good, reducing exterior noise and creating a more peaceful indoor environment. This curtain wall is also known as a Broken bridge aluminum curtain wall or an Aluminium sheet curtain wall.

Shape:	Rectangle
Width:	≤1500mm
Color:	Customization
Raw Material:	Aluminum Alloy
Packing:	Free Wrapped in Shrink Polythene
Durability:	Long-lasting
Ceiling Tile Type:	Metal Ceilings

Applications:

One of the most common uses for this product is as a curtain wall for buildings. The open frame curtain wall design allows for natural light to filter through, while still maintaining a strong and secure structure. This is particularly beneficial for commercial buildings, as it can help to reduce energy costs by allowing natural light to illuminate the space.

In addition to its use as a curtain wall, the MQ aluminum curtain wall is also suitable for a variety of other scenarios. For example, it can be used to create an attractive and functional exterior façade for a retail store or office building. The high weather resistance of the product means that it can withstand harsh weather conditions, making it a reliable choice for any location.

Another potential use for this product is in the construction of green buildings. The excellent thermal insulation properties of the MQ aluminum curtain wall help to keep the interior of the building at a comfortable temperature, reducing the need for heating and cooling. This can help to reduce the carbon footprint of the building while also saving on energy costs.

No matter the application occasion or scenario, GuangdongSuperHuge's MQ aluminum curtain wall is a reliable and durable choice. Its open frame curtain wall design, combined with its excellent weather resistance and thermal insulation, make it a versatile and cost-effective solution for any building project.

Customization:

GuangdongSuperHuge MQ Aluminum Curtain Wall with our product customization services. Our open frame curtain wall design is modern and long-lasting, making it the perfect addition to any building. Choose from a variety of colors for customization, and rest assured that our product is made in China with the highest quality materials.
