

Rectangle Aluminum Wall Panels with Sound Insulation and Shading System

Our Product Introduction

for more products please visit us on glass-curtainwall.com

Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 588RMB/m²
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Sound Insulation: Good
- Raw Material: Aluminum Alloy
- Width: ≤1500mm
- Shape: Rectangle
- Materil: Aluminum Alloy
- Product: Aluminum Curtain Wall
- Packing: Free Wrapped In Shrink Polythene
- Durability: Long-lasting
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass

Product Description

Product Description:

With a width of $\leq 1500\text{mm}$, the Aluminum Curtain Wall can easily fit any building design and is customizable to fit any specific requirements. The system consists of aluminum extrusions and glass panels that are assembled on-site, allowing for a flexible and easy installation process.

The Aluminum Curtain Wall is known for its long-lasting durability, making it an ideal choice for both commercial and residential buildings. The use of high-quality materials ensures that the curtain wall system can withstand harsh weather conditions, such as strong winds and heavy rains, without compromising its performance.

Not only is the Aluminum Curtain Wall durable, but it also provides excellent thermal insulation. The system's design includes thermal breaks that prevent heat transfer, reducing energy consumption and maintaining a comfortable indoor temperature. This feature is particularly important for buildings located in extreme temperatures or climates.

Additionally, the Aluminum Curtain Wall offers good sound insulation, making it ideal for buildings located in busy or noisy areas. The system's design includes a double-glazed glass panel that reduces external noise, ensuring a peaceful and quiet indoor environment. Overall, the Aluminum Curtain Wall is a reliable and practical solution for any building facade design. Its long-lasting durability, excellent thermal insulation, and good sound insulation make it a popular choice among architects and builders. Contact us today to learn more about how the Aluminum Curtain Wall can enhance your building's aesthetic appeal and performance.

Features:

Product Name: Aluminum Curtain Wall

Design Style: Modern

Product: Aluminum Curtain Wall

Lead Time: 15-20 days

Material: Aluminum Alloy

Weather Resistance: High

Types:

Hidden frame curtain wall

Broken bridge aluminum curtain wall

Aluminum curtain wall

Technical Parameters:

Product Attribute	Description
Product	Aluminum Curtain Wall
Material	Aluminum Alloy
Shape	Rectangle
Sound Insulation	Good
Design Style	Modern
Ceiling Tile Type	Metal Ceilings
Thermal Insulation	Excellent
Raw Material	Aluminum Alloy
Durability	Long-lasting
Packing	Free Wrapped In Shrink Polythene
Bonus	Broken bridge aluminum curtain wall, Curtain Wall, Hidden frame curtain wall

Applications:

The Aluminum Curtain Wall has various product application occasions and scenarios, which include:

Commercial Buildings:

The Aluminum Curtain Wall is perfect for commercial buildings such as malls, shopping centers, and office buildings. The sleek and modern design of the curtain wall will add a touch of elegance to the exterior of the building. The product is designed to fit in with the overall architecture and improve the aesthetic appeal of the building.

Residential Buildings:

The Aluminum Curtain Wall is also ideal for residential buildings like apartment complexes, condominiums, and villas. The open frame curtain wall design allows for natural light to enter the building, creating a warm and inviting atmosphere. The product provides a seamless connection between the interior and exterior of the building, making it perfect for houses with a view.

Hospitals and Educational Institutions:

The Aluminum Curtain Wall is suitable for hospitals and educational institutions like schools and universities. The product's metal ceiling type design makes it easy to clean and maintain, ensuring a hygienic environment for patients and students. The curtain wall also

provides a comfortable and welcoming atmosphere, making it perfect for places where people come to seek assistance or knowledge.
Industrial Buildings:

The Aluminum Curtain Wall can be used for industrial buildings such as factories and warehouses. The product's sturdy aluminum alloy material ensures that it can withstand harsh weather conditions, making it perfect for buildings in areas with extreme weather. The open frame curtain wall design allows for natural light to enter the building, reducing the need for artificial lighting and helping to save on energy costs.

The Aluminum Curtain Wall from GuangdongSuperHuge is a versatile and durable product that can be used in a variety of settings. Its open frame curtain wall design provides excellent natural lighting and a seamless connection between the interior and exterior of the building. Its metal ceiling type design makes it easy to clean and maintain, ensuring a hygienic environment. Get in touch with us today to learn more about the Aluminum Curtain Wall and how it can benefit your building project.

Customization:

Support and Services:

The Aluminum Curtain Wall product technical support and services include:

Expert technical assistance in the planning and installation of the curtain wall system

Customized design and engineering solutions to meet specific project requirements

Professional project management services to ensure timely and efficient completion

Ongoing maintenance and repair services to ensure optimal performance and longevity of the curtain wall system

Training and support for contractors and installers

Packing and Shipping:

Product Packaging:

All aluminum curtain wall components will be packed in sturdy wooden crates to ensure safe transportation and delivery.

Each crate will be labeled with the product name, quantity, and handling instructions.

Additional padding and protective materials will be used to secure the components during transit.

Shipping:

Shipping will be arranged through a reputable freight company.

The estimated delivery time will be communicated to the customer prior to shipment.

The customer will be responsible for any customs fees or taxes associated with the shipment.

Upon delivery, the customer should inspect the package for any damage and report it to the freight company and the seller if necessary.

FAQ:

Q: What is the brand name of this Aluminum Curtain Wall?

A: The brand name of this Aluminum Curtain Wall is GuangdongSuperHuge.

Q: What is the model number of this Aluminum Curtain Wall?

A: The model number of this Aluminum Curtain Wall is MQ.

Q: Where is this Aluminum Curtain Wall manufactured?

A: This Aluminum Curtain Wall is manufactured in China.

Q: Is this Aluminum Curtain Wall suitable for high-rise buildings?

A: Yes, this Aluminum Curtain Wall is suitable for high-rise buildings.

Q: What is the maximum wind pressure resistance of this Aluminum Curtain Wall?

A: The maximum wind pressure resistance of this Aluminum Curtain Wall is 0.6 kN/m².
