Product Description

Product Description:

The Glass Curtain Wall is available in any color of aluminum, making it easy to match the building's exterior. It is designed for thermal insulation to provide a comfortable indoor environment all year round. The Glass Curtain Wall also offers customized design patterns selection to meet any design requirement.

One of the main advantages of the Glass Curtain Wall is its waterproof and soundproof features. The glass panels and aluminum frames are designed to prevent water from entering the building, ensuring that the interior remains dry and comfortable. The Glass Curtain Wall also offers soundproofing capabilities, which is particularly important in noisy urban areas.

The Glass Curtain Wall is also an energy-saving product. The thermal insulation feature helps to reduce energy consumption by maintaining a comfortable indoor temperature. This reduces the need for heating and cooling systems, which in turn reduces energy costs and carbon footprint.

The Glass Curtain Wall is a long-lasting product that requires minimal maintenance. The aluminum frames are corrosion-resistant and do not require painting. The glass panels are also highly durable and can withstand harsh weather conditions. This makes the Glass Curtain Wall an ideal choice for buildings that require a low-maintenance facade system.

In summary, the Glass Curtain Wall is a modern and innovative facade system that offers a range of benefits. Its thermal insulation, customized design patterns selection, waterproof and soundproof features, energy-saving capabilities, and long-lasting durability make it an ideal choice for modern buildings. The Glass Curtain Wall is available in any color of aluminum, making it easy to match the building's exterior. It is a non-structural system that uses glass panels and aluminum frames to create a building's exterior envelope.

Features:

Product Name: Glass Curtain Wall

Aluminium Color: Any Color

Advantage: Waterproof, Soundproof, Energy Saving

Heat Insulation: Yes

Durability: Long-lasting

Aesthetics: Sleek And Modern

Technical Parameters:

Aesthetics	Sleek and Modern
Patterns Selection	Customized Design Available
Advantage	Waterproof, Soundproof, Energy Saving
Heat Insulation	Yes
Protection	Thermal Insulation
Aluminium Color	Any Color
Panel Thickness	1.4~5.0mm
Durability	Long-lasting
Function	Soundproof ,Adjust The Light

Applications:

The Glass Curtain Wall by GuangdongSuperHuge, with model number MQ, is one of the most sought-after products in the market. This product is produced and manufactured in China with CE and ISO certifications, ensuring its high-quality and reliability. The minimum order quantity for this product is 100m² at a price of 580RMB.

The Glass Curtain Wall product by GuangdongSuperHuge has the function to soundproof and adjust the light entering the room. It is the perfect solution for buildings located in noisy environments, such as busy streets or airports. The Glass Curtain Wall can also be adjusted to control the amount of natural light that enters the room, reducing the need for artificial lighting and, therefore, saving energy.

This product is highly customizable, with a wide selection of patterns available to cater to the individual design needs of any building. Additionally, the Glass Curtain Wall is designed with heat insulation properties, ensuring that the inside of the building remains at a comfortable temperature, regardless of the weather outside.

The Aluminium Color of the Glass Curtain Wall can be customized to any color, allowing for seamless integration with the building's overall design and aesthetic. Furthermore, the Glass Curtain Wall is waterproof, soundproof, and energy-saving, providing further advantages for the building owner and occupants.

The Glass Curtain Wall product by GuangdongSuperHuge comes packaged in wooden boxes, and delivery time ranges from 20-60 work days. Payment terms are T/T.

The Glass Curtain Wall product is the ideal solution for buildings that require soundproofing, energy-saving, and a customizable design. Its heat insulation properties, waterproofing, and soundproofing capabilities make it an excellent investment for any building owner, regardless of the building's intended use.

Customization:

We offer customized design patterns for our Glass Curtain Wall, and the Aluminum color can be customized to any color. Our Glass Curtain Wall is long-lasting and has excellent heat insulation properties. It is also designed to provide thermal insulation and protection.

Support and Services:

Our Glass Curtain Wall product comes with comprehensive technical support and services to ensure its proper installation, operation, and maintenance. Our team of experts is available to provide assistance with:

Design and engineering support

Installation guidance

Product training and certification programs

Warranty and post-warranty service

Repairs and replacement parts

Energy efficiency analysis and recommendations

We are committed to delivering top-notch support and services to our customers to help them achieve the best performance and longevity of their Glass Curtain Wall system.

Packing and Shipping:

Product Packaging:

The Glass Curtain Wall product is carefully packed in sturdy wooden crates to ensure its safety during transportation. Each crate is designed to fit the dimensions of the glass panels and is padded to prevent any damage during transportation. The crates are labeled with clear identification of the product type and quantity for easy identification and handling.

Shipping:

Our Glass Curtain Wall product is shipped via reliable and reputable shipping companies that specialize in glass transportation. We ensure that all necessary precautions are taken to prevent any damage during transit and all shipments are fully insured to provide our customers with peace of mind. We provide tracking information for all shipments so that our customers can monitor the progress of their orders and plan for delivery accordingly.
