Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 588RMB/m²
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Weather Resistance: High
- Type: Curtain Wall
- Product: Aluminum Curtain Wall
- Design Style: Modern
- Shape: Rectangle
- Sound Insulation: Good
- Ceiling Tile Type: Metal Ceilings
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass
- Type Of Glass: Customisation
- Surface Treatment: Powder Spraying/Fluorocarbon

Product Description

Modern Broken Bridge Aluminum Curtain Wall Panels Weather Resistance With Good Sound Insulation

Product Description:

This Curtain Wall is designed to be easy to install, which means that it is ideal for use in a wide range of construction projects. It has a maximum width of $\leq 1500\text{mm}$, which makes it suitable for use in both large and small buildings. The product has a lead time of 15-20 days which means that it can be delivered quickly to construction sites.

The Aluminum Curtain Wall is a type of metal ceiling that is designed to be both functional and decorative. It is often used in commercial and industrial buildings, where it can help to reduce noise levels and improve the overall appearance of the space. This Curtain Wall is easy to clean and maintain, making it a popular choice for busy environments.

The Curtain Wall comes packed in Free Wrapped In Shrink Polythene, which means that it will arrive at the construction site in excellent condition. The packaging also helps to protect the product from damage during transit, which means that it is more likely to last for a long time.

The Aluminum Curtain Wall is designed to provide excellent sound insulation, which means that it is ideal for use in buildings where noise levels need to be kept to a minimum. The product has been tested and proven to provide good sound insulation, which means that it can help to create a more comfortable and peaceful environment for building occupants.

In summary, the Aluminum Curtain Wall is a high-quality product that is designed to meet the needs of architects and builders who want to create a sleek, modern look for their buildings. It is easy to install and is suitable for use in a wide range of construction projects. The product comes packed in Free Wrapped In Shrink Polythene, which means that it will arrive at the construction site in excellent condition. The Curtain Wall is a type of metal ceiling that provides excellent sound insulation, making it ideal for use in buildings where noise levels need to be kept to a minimum.

Features:

Product Name: Aluminum Curtain Wall

Width: $\leq 1500\text{mm}$

Packing: Free Wrapped In Shrink Polythene

Weather Resistance: High

Design Style: Modern

Type: Curtain Wall

Material: Aluminium sheet

Special Feature: Broken bridge aluminum curtain wall

Technical Parameters:

Raw Material	Aluminum Alloy
Lead Time	15-20 days
Design Style	Modern
Sound Insulation	Good
Durability	Long-lasting
Packing	Free Wrapped In Shrink Polythene
Material	Aluminium sheet
Thermal Insulation	Excellent
Type	Broken bridge aluminum curtain wall
Width	$\leq 1500\text{mm}$

Applications:

One of the most common applications of the MQ aluminum curtain wall is in the construction of buildings. It can be used to create a stunning exterior facade that is both functional and aesthetically pleasing. The curtain wall can also be used as a partition wall in large, open spaces such as shopping malls, airports, and office buildings.

The thermal insulation of the MQ aluminum curtain wall is excellent, making it ideal for use in buildings that require energy efficiency. The broken bridge aluminum curtain wall is particularly useful in this regard, as it helps to prevent heat transfer between the interior and exterior of the building.

Another application of the MQ aluminum curtain wall is in the construction of greenhouses. The curtain wall allows for natural light to enter the building, creating a perfect environment for plants to grow. The open frame curtain wall is particularly useful in this regard, as it allows for a large amount of air to circulate, helping to regulate temperature and humidity levels.

Overall, the MQ aluminum curtain wall is a versatile product that can be used in a wide range of settings. Its durability, thermal insulation, and ease of installation make it a popular choice for architects and builders alike. The packing of the product is free wrapped in shrink polythene for added protection during transportation. The lead time for manufacturing and delivery is 15-20 days, ensuring that your project will be completed on time.

Customization:

Support and Services:

Our Aluminum Curtain Wall product comes with comprehensive technical support and services, including:

Consultation and design assistance for custom projects

Installation guidance and recommendations

Technical documentation and specifications

Warranty and repair services

Product training and education

We are committed to providing our customers with the highest level of support and ensuring the successful implementation of our products in their projects.

Packing and Shipping:

Product Packaging:

The aluminum curtain wall will be securely packaged in a wooden crate to prevent any damages during transportation.

All necessary accessories and installation instructions will be included inside the crate.

Shipping:

The aluminum curtain wall will be shipped via a reliable and reputable carrier.

The shipping cost will be calculated based on the weight and dimensions of the crate, as well as the shipping distance.

Tracking information will be provided once the product has been shipped.
