Product Description

Product Description:

One of the most attractive features of the Glass Curtain Wall is the ability to select customized patterns for the design. This means that the Glass Curtain Wall can be tailored to the specific needs of the building, allowing for a unique and personalized look. The Glass Curtain Wall is also designed to offer excellent heat insulation, making it an ideal choice for buildings in colder climates. This feature ensures that the building remains warm and comfortable, even in the coldest of temperatures. In summary, the Glass Curtain Wall is a sleek and modern product that offers excellent aesthetic appeal. The panel thickness ranges from 1.4 to 5.0mm, and the Aluminium color can be customized to match any color scheme. The ability to select customized patterns for the design allows for a unique and personalized look. The Glass Curtain Wall also offers excellent heat insulation, making it an ideal choice for buildings in colder climates.

Features:

Product Name: Glass Curtain Wall
Aluminium Color: Any Color
Function: Soundproof, Adjust The Light
Panel Thickness: 1.4~5.0mm
Durability: Long-lasting
