- Color: Color Customization
- Design Style: Modern
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass
- Type Of Glass: Customisation
- Surface Treatment: Powder Spraying/Fluorocarbon

Product Description

Product Description:

The Curtain Wall comes in two types; the Open Frame Curtain Wall and the Hidden Frame Curtain Wall. The Open Frame Curtain Wall features a visible aluminum frame that holds the glass or other infill panels in place. The Hidden Frame Curtain Wall, on the other hand, has no visible frame, giving it a seamless and sleek appearance.

The Aluminum Curtain Wall is an excellent choice for any building that requires a modern, aesthetic look. Its non-load-bearing nature makes it ideal for buildings with high wind loads, such as skyscrapers. The system can also be customized to meet specific design requirements, including color, shape, and size.

The Curtain Wall offers excellent sound insulation, making it ideal for buildings located in busy areas such as airports and commercial districts. The metal ceilings used in the system also enhance the soundproofing properties of the Curtain Wall.

The Aluminum Curtain Wall is easy to install, and its lightweight nature makes it ideal for large scale projects. The system comes in standard sizes and can also be customized to meet specific project requirements.

The Curtain Wall comes packed in a free wrapped shrink polythene, which ensures that the product arrives at the site in pristine condition. The packaging also protects the product from damage during transportation and storage.

In conclusion, the Aluminum Curtain Wall is a high-quality product that offers a modern and sleek look to any building. Its sound insulation properties, ease of installation, and customization options make it an ideal choice for architects and builders. It is available in two types, Open Frame Curtain Wall, and Hidden Frame Curtain Wall, and comes packed in free shrink polythene. Get this product today and transform your building into a modern masterpiece.

Features:

Product Name: Aluminum Curtain Wall

Type: Curtain Wall

Weather Resistance: High

Product: Aluminum Curtain Wall

Raw Material: Aluminum Alloy

Shape: Rectangle

Technical Parameters:

Raw Material	Aluminum Alloy
Lead Time	15-20 days
Design Style	Modern
Sound Insulation	Good
Width	≤1500mm
Material	Aluminum Alloy
Ceiling Tile Type	Metal Ceilings
Weather Resistance	High
Type	Curtain Wall
Color	Color Customization

Applications:

One of the primary applications of this curtain wall is in commercial buildings. It is perfect for use in office buildings, shopping malls, and other retail spaces. The aluminum curtain wall is highly durable and can withstand the wear and tear that comes with high traffic areas. Its long-lasting nature means that it will be able to withstand the elements and maintain its appearance for many years to come.

The MQ model aluminum curtain wall is also an excellent choice for residential buildings. It is perfect for use in high-rise apartment buildings and condominiums. Its sound insulation properties make it an ideal choice for those who want to reduce noise pollution in their homes. The weather resistance is also high, which means that it will be able to withstand harsh weather conditions without deteriorating.

Another application of the aluminum curtain wall is in educational institutions. The curtain wall is perfect for use in schools, colleges, and universities. Its durability and long-lasting nature make it an excellent choice for high-traffic areas such as hallways and common areas.

The sound insulation properties also make it ideal for use in classrooms and lecture halls where noise pollution can be a problem.

The GuangdongSuperHuge MQ model aluminum curtain wall has a lead time of 15-20 days, making it a quick and efficient choice for those who need the product in a hurry. It is also a great choice for those who want a product that is easy to install and maintain. Its metal ceiling tile type makes it easy to clean and keep looking great for many years to come.

In conclusion, the MQ model aluminum curtain wall from GuangdongSuperHuge is an excellent choice for anyone looking for a durable and long-lasting product that is perfect for a variety of applications. Its hidden frame design makes it perfect for modern and contemporary buildings, while its sound insulation and weather resistance properties make it ideal for use in a variety of settings.
