Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 588RMB/m²
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Name: Curved Curtain Wall Aluminium
- Ceiling Tile Type: Metal Ceilings
- Durability: Long-lasting
- Lead Time: 15-20days
- Thermal Insulation: Excellent
- Materil: Aluminum Alloy
- Design Style: Modern
- Color: Color Customization
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass
- Type Of Glass: Customisation

Product Description

Aluminum Alloy Modern Metal Ceilings For Superior Thermal Insulation

Product Description:

The Aluminum Curtain Wall is a popular choice for modern buildings because of its sleek and elegant appearance. The use of aluminum sheets in the curtain wall system provides the building with a lightweight structure, which reduces the overall weight of the building and allows for larger spans of glass. This design also provides a high level of natural light, making it a popular choice for commercial buildings like shopping malls, hotels, and office buildings.

The Aluminum Curtain Wall is highly customizable, allowing architects and builders to create unique designs that fit perfectly with the building's overall aesthetic. The color of the curtain wall can be customized to match the building's exterior, making it easy to create a seamless look. The Aluminum Curtain Wall can also be used in combination with other building materials like glass, stone, and steel to create a unique and modern look.

One of the major benefits of the Aluminum Curtain Wall is its high level of thermal insulation. The use of high-quality aluminum alloy provides excellent insulation properties, which helps to reduce energy costs and improve the overall energy efficiency of the building. This insulation also provides a comfortable interior environment for building occupants, making it a popular choice for residential and commercial buildings.

In addition to its thermal insulation properties, the Aluminum Curtain Wall also provides high weather resistance. The use of aluminum sheets in the curtain wall system provides excellent protection against the elements, making it suitable for use in all types of weather conditions. This makes it a popular choice for buildings located in areas with harsh weather conditions, like coastal regions.

The lead time for the Aluminum Curtain Wall is 15-20 days, making it a quick and cost-effective solution for building facades. Its lightweight structure also makes it easy to install, reducing installation time and labor costs. The Aluminum Curtain Wall is a popular choice for architects and builders who are looking for a cost-effective and customizable solution for modern building facades.

Features:

Product Name: Aluminum Curtain Wall

Shape: Rectangle

Product Type: Aluminum Curtain Wall

Durability: Long-lasting

Material: Aluminum Alloy

Thermal Insulation: Excellent

Product Features:

Broken bridge aluminum curtain wall

Hidden frame curtain wall

Open frame curtain wall

Technical Parameters:

Shape	Rectangle
Raw Material	Aluminum Alloy
Thermal Insulation	Excellent
Ceiling Tile Type	Metal Ceilings
Type	Curtain Wall
Durability	Long-lasting
Material	Aluminum Alloy
Sound Insulation	Good
Design Style	Modern
Width	≤1500mm

Applications:

The MQ Aluminum Curtain Wall is perfect for commercial and industrial buildings as it can withstand harsh weather conditions due to its high weather resistance. It is an ideal product for buildings located in areas prone to harsh weather conditions such as heavy rain, strong winds, and even hailstorms.

This curtain wall is also perfect for buildings located in noisy areas, as it offers good sound insulation. It can effectively reduce the noise level, creating a more peaceful and comfortable environment for the occupants.

The MQ Aluminum Curtain Wall is perfect for buildings that require natural lighting and ventilation. It can be designed as an open frame curtain wall, allowing natural light and air to enter the building, reducing the need for artificial lighting and air conditioning.

This curtain wall is versatile and can be used in various application scenarios such as malls, hospitals, schools, and office buildings. Its durability and long-lasting attributes make it an ideal choice for projects that require a low maintenance product.

With a lead time of 15-20 days, GuangdongSuperHuge's MQ Aluminum Curtain Wall is a reliable and efficient solution for your building needs. It is a product that offers both functionality and aesthetics, making it an ideal choice for architects and builders.

Choose GuangdongSuperHuge's MQ Aluminum Curtain Wall for a reliable and long-lasting solution that can withstand harsh weather conditions, reduce noise levels, and offer natural lighting and ventilation. It's a product that is perfect for various application occasions and scenarios, making it a versatile and efficient choice for your building needs.

Customization:

Support and Services:

Our Aluminum Curtain Wall product technical support and services include:

Consultation and design assistance

Custom fabrication to fit project specifications

Installation guidance and support for contractors

Maintenance and repair services

Technical documentation and product manuals

Quality control and testing

Packing and Shipping:

The Aluminum Curtain Wall product will be carefully packaged to ensure safe delivery. The product will be wrapped in bubble wrap and placed in a cardboard box. The box will be labeled with the product name and specifications for easy identification.

Shipping:

The Aluminum Curtain Wall product will be shipped through our trusted shipping partners to ensure timely and safe delivery. Shipping costs will be calculated based on the destination and weight of the product. Once the product is shipped, the customer will receive a tracking number to track the delivery status.

FAQ:

GuangdongSuperHuge

. 2. Q: What is the model number of this Aluminum Curtain Wall product? A: The model number of this product is MQ

. 3. Q: Where is this Aluminum Curtain Wall product manufactured? A: This product is manufactured in China

. 4. Q: What is the maximum size of the Aluminum Curtain Wall panels? A: The maximum size of the panels varies depending on the specific project requirements. Please contact us for more information.

5. Q: What finishes are available for this Aluminum Curtain Wall product? A: We offer a variety of finishes for this product, including anodized, powder-coated, and PVDF-coated finishes. Please contact us for more information on available options.
