- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 588RMB/m²
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Product: Aluminum Curtain Wall
- Shape: Rectangle
- Ceiling Tile Type: Metal Ceilings
- Sound Insulation: Good
- Raw Material: Aluminum Alloy
- Weather Resistance: High
- Width: ≤1500mm
- Packing: Free Wrapped In Shrink Polythene
- Material: Aluminum Alloy
- Column: 2.5mm-5.0mm
- Beams: 2.0mm-3.0mm
- Glass: Toughened Glass
- Type Of Glass: Customisation

Product Description

Rectangle Metal Ceilings Aluminum Curtain Wall With Weather Resistance And Good Sound Insulation

Product Description:

The Aluminum Curtain Wall is composed of Aluminium sheets that are formed into a rectangular shape, providing an elegant and professional look for any building. The open frame design of this curtain wall allows for natural light to pass through, making it energy-efficient and an eco-friendly option for any structure.

The sound insulation provided by the Aluminum Curtain Wall is of the highest quality, ensuring that external noise does not affect the productivity and comfort of any interior space. This makes it an ideal choice for buildings located in busy urban areas or near major highways.

The Aluminum Curtain Wall comes with free wrapping in shrink polythene, ensuring that it is protected during transportation and delivery. This also helps to ensure that the product arrives at its destination in perfect condition, ready for installation.

The Aluminum Curtain Wall is extremely durable and long-lasting, making it a cost-effective option for any building owner or developer. Its Broken Bridge Aluminum construction ensures that it can withstand even the harshest weather conditions, including strong winds and heavy rains, without showing signs of wear and tear.

In conclusion, the Aluminum Curtain Wall is an excellent choice for anyone looking for a high-quality and durable curtain wall option for their building. With its open frame design, good sound insulation, color customization, and long-lasting durability, it is an excellent value for money option. Plus, its free wrapping in shrink polythene ensures that it arrives at its destination in perfect condition, ready for installation.

Features:

Product Name: Aluminum Curtain Wall

Type: Curtain Wall

Raw Material: Aluminum Alloy

Sound Insulation: Good

Thermal Insulation: Excellent

Weather Resistance: High

Technical Parameters:

Sound Insulation	Good
Thermal Insulation	Excellent
Product	Aluminum Curtain Wall
Ceiling Tile Type	Metal Ceilings
Width	≤1500mm
Design Style	Modern
Durability	Long-lasting
Lead Time	15-20days
Shape	Rectangle
Raw Material	Aluminum Alloy

Applications:

The Hidden frame Curtain Wall is a type of Curtain Wall that is popular due to its sleek and modern design. The MQ model is designed specifically for this purpose and can be used in a variety of scenarios where a modern and minimalistic design is desired. This product is ideal for use in commercial buildings, offices, and residential buildings.

The sound insulation of the MQ model Curtain Wall is good, making it an excellent choice for buildings located in noisy areas. The width of this product is ≤1500mm, making it suitable for a wide range of applications. It can be used in large-scale projects or in smaller buildings.

In addition to its sleek and modern design, the MQ model Curtain Wall also has excellent durability and is designed to withstand harsh weather conditions. This makes it an excellent choice for buildings located in areas with extreme weather conditions.

The MQ model Curtain Wall is also suitable for use with metal ceilings. This means that it can be used in a variety of applications, including commercial buildings and offices. The product is also free wrapped in shrink polythene, which provides added protection during transportation and storage.

In summary, GuangdongSuperHuge's MQ model Curtain Wall is an excellent choice for anyone looking for a modern and stylish building exterior. Its hidden frame design, good sound insulation, and durability make it suitable for a wide range of application occasions and scenarios.
