Shape: Customizable

Installation Method: Dry-hanging

Material: Stone (Slate)

Application: Exterior Wall

Technical Parameters:

Application	Exterior Wall
Material	Stone
Shape	Customizable
Size	Customizable
Thickness	25-35mm
Installation Method	Dry-hanging
Design Style	Modern
Color	Customizable
Thermal Insulation	Excellent
Maintenance	Low

Applications:

One of the key application occasions for this product is on the ground floor of buildings. The Stone Curtain Wall is an excellent way to add an extra layer of insulation to the building, helping to keep it warm in the winter and cool in the summer. The low maintenance requirements of the product make it ideal for use in high traffic areas, where regular cleaning and maintenance might be difficult to carry out.

Another common scenario for the use of the Stone Curtain Wall is in the construction of curtain walls. The product's customizable size and shape make it ideal for use in a wide range of curtain wall designs, allowing architects and builders to create unique and visually stunning facades.

The excellent thermal insulation offered by the Stone Curtain Wall makes it ideal for use in a variety of different climates. Whether you are building in a cold northern climate or a hot southern one, the product can help to keep the building's interior at a comfortable temperature. In conclusion, GuangdongSuperHuge's MQ Stone Curtain Wall is a versatile and highly customizable product that can be used in a wide range of applications. Its excellent thermal insulation and low maintenance make it ideal for use on the ground floor of buildings and in the construction of curtain walls. So, if you are looking for a reliable and visually stunning exterior wall solution, the Stone Curtain Wall is definitely worth considering.
