Product Description

Product Description:

One of the key features of this product is its customizable size, shape, and color options. This means that you can tailor the Stone Curtain Wall to your specific needs and preferences, ensuring that it matches the overall design and style of your building perfectly.

In addition to its customizable options, the Stone Curtain Wall also provides excellent thermal insulation. This is particularly important for buildings that are located on the ground floor, as they are more susceptible to heat loss and cold air drafts. With the Stone Curtain Wall, you can be sure that your building will be well-insulated and energy-efficient.

Overall, the Stone Curtain Wall is a great choice for anyone looking to add a touch of sophistication to their building. Its customizable options and excellent thermal insulation make it a practical and stylish choice for any ground floor building.

Features:

Product Name: Stone Curtain Wall

Installation Method: Dry-hanging

Shape: Customizable

Material: Slate

Thickness: 25-35mm

Thermal Insulation: Excellent

Technical Parameters:

Color	Customizable
Installation Method	Dry-hanging
Design Style	Modern
Thickness	25-35mm
Size	Customizable
Application	Exterior Wall
Shape	Customizable
Maintenance	Low
Thermal Insulation	Excellent
Material	Stone (Slate)
Product	Curtain Wall
Location	The ground floor

Applications:

The curtain wall is made of high-quality slate, which means it has superior resistance to weathering and erosion. This makes it ideal for use in areas with harsh environmental conditions, such as high winds, heavy rain, and extreme temperatures. Additionally, the slate material gives the wall a natural and timeless appearance that complements any architectural style.

The MQ Stone Curtain Wall is available in a range of customizable colors and shapes to meet the unique design needs of any project.

The thickness of the wall ranges from 25-35mm, providing a substantial and sturdy appearance. The dry-hanging installation method also ensures that the wall is securely attached to the building and can withstand the test of time.

The Stone Curtain Wall is suitable for a variety of application occasions and scenarios. It can be used to create a beautiful and functional facade for commercial buildings, office buildings, and public spaces. The natural appearance of the slate material makes it particularly well-suited for use in outdoor areas, such as park pavilions, walkways, and plazas.

In summary, GuangdongSuperHuge's MQ Stone Curtain Wall is a versatile and durable product that can be customized to meet the design needs of any project. Its slate material, dry-hanging installation method, and range of customizable options make it an ideal choice for exterior wall applications in a variety of settings.

Customization:

Our Stone Curtain Wall is made in China and is available in a range of colours that are all customizable. It requires low maintenance and has a thickness of 25-35mm. The installation method is dry-hanging, making it easy to install and remove.

The Slate material used in our Stone Curtain Wall ensures durability and longevity, making it a great investment for your building.

Support and Services:

Our Stone Curtain Wall product is designed to provide an elegant and durable solution for modern building exteriors. We offer

comprehensive technical support and services to ensure proper installation and long-term performance of our product.

Our team of experts can provide detailed product specifications, installation guidance, and troubleshooting assistance. We also offer regular maintenance and inspection services to ensure the continued functionality and aesthetic appeal of our Stone Curtain Wall product.

In addition, we provide training sessions and educational resources to help architects, engineers, and contractors understand the unique features and benefits of our product.
