- Color: Customisation

Product Description

Product Description:

One of the standout features of the Stone Curtain Wall is its customisable shape. Our customers have the freedom to choose from a variety of shapes and sizes to fit their specific needs. This makes the product a great choice for architects, builders, and homeowners who want to create a unique and tailored look for their building.

The Stone Curtain Wall is made of high-quality slate, ensuring that it can withstand harsh weather conditions and maintain its appearance over time. Slate is known for its durability and resistance to water, making it an ideal material for exterior wall applications. Additionally, it is a natural material, which means that it is environmentally friendly and sustainable.

The installation method for the Stone Curtain Wall is dry-hanging. This means that the product is attached to the wall using a system of brackets and fasteners, rather than being affixed directly to the wall. This method of installation makes it easy to replace individual tiles if they become damaged or need to be removed for maintenance purposes. It also creates a clean and seamless finish, without any visible screws or nails.

Overall, the Stone Curtain Wall is a great choice for those looking for a customisable and durable exterior wall cladding solution. Its use of slate as a material ensures that it will stand the test of time, while its modern design style will complement any contemporary architecture. Choose the Stone Curtain Wall for a unique and tailored look for your building.

Features:

Product Name: Stone Curtain Wall

Material: Stone

Size: Customizable

Thermal Insulation: Excellent

Shape: Customizable

Maintenance: Low

This Stone Curtain Wall product is made of high-quality stone material, which provides excellent thermal insulation.
