Product Description

Product Description:

One of the best features of this product is its excellent thermal insulation properties. This means that the wall will help regulate the temperature inside your building, keeping it warm in the winter and cool in the summer, leading to energy savings and a more comfortable living or working environment.

But what sets our Stone Curtain Wall apart is the ability to customise it to your liking. We understand that every project is unique, so we offer a wide range of colours to choose from. Whether you want a traditional grey tone or a more vibrant option, we have you covered.

Our team of experts can work with you to find the perfect colour that suits your design vision.

Overall, the Stone Curtain Wall is a top-of-the-line product that provides excellent thermal insulation, durability, and customisation options.

It is perfect for any exterior wall project, whether for a commercial or residential building. So why settle for a standard wall when you can have a beautiful and functional one that reflects your style?

Features:

Product Name: Stone Curtain Wall

Application: Exterior Wall

Size: Customizable

Maintenance: Low

Thermal Insulation: Excellent

Shape: Customizable

The Stone Curtain Wall is an ideal choice for the exterior walls of commercial and residential buildings. It is fully customizable in terms of both size and shape, making it a perfect fit for any architectural design. With low maintenance requirements, this product is a cost-effective solution for long-term use. The excellent thermal insulation properties of the Stone Curtain Wall make it ideal for use on the ground floor, ensuring maximum energy efficiency and cost savings for the building owner.

Technical Parameters:

Design Style	Modern
Color	Customizable
Material	Stone
Application	Exterior Wall
Size	Customizable
Installation Method	Dry-hanging
Shape	Customizable
Maintenance	Low
Thermal Insulation	Excellent

Applications:

The product is highly versatile and can be used in various occasions and scenarios. It is ideal for use in commercial and residential buildings, especially on the ground floor. The stone provides excellent thermal insulation, making it perfect for areas with extreme temperatures. The customisation option available with this product makes it more desirable for architects and designers. They can choose from a wide range of colours and textures to match the building's design and aesthetics.

The Stone Curtain Wall is an excellent option for buildings located in areas with high wind loads and seismic activities. The dry-hanging installation method ensures that the building remains structurally sound and secure. The maintenance cost of the product is low, making it an economical choice for building owners.

The product is available in different types of stone, including slate, which is a popular choice amongst architects. The slate stone curtain wall provides a natural and rustic look to any building, making it the perfect choice for buildings with a traditional design. The product is ideal for use in both new construction and renovation projects.

Customization:

Support and Services:

The Stone Curtain Wall product technical support and services include:

Consultancy on design and installation

Customization options to fit specific project requirements

Training for installation and maintenance

Supply of necessary tools and equipment
On-site technical support for installation and troubleshooting
