Product Description

Product Description:

One of the most notable features of this curtain wall is its customisable size and colour options. This means that it can be tailored to fit any design preference or architectural style, making it a highly versatile solution for any exterior wall project.

The use of stone as the primary material for this curtain wall offers a number of benefits, including excellent strength, durability, and weather resistance. This makes it a great choice for buildings that are exposed to harsh weather conditions or other environmental factors that can cause damage to less resilient materials.

The Stone Curtain Wall is also a highly customisable solution, which means that it can be tailored to fit any design or aesthetic preference. This customisation can include the use of different stone types, colours, and sizes, as well as the incorporation of unique design elements and features.

Overall, the Stone Curtain Wall is a highly versatile and durable solution that offers a striking and unique aesthetic appeal. Its use of natural stone materials and customisation options make it a great choice for any exterior wall project.

Features:

Product Name: Stone Curtain Wall

Maintenance: Low

Installation Method: Dry-hanging

Application: Exterior Wall

Color: Customizable

Material: Stone

With its low maintenance and dry-hanging installation method, the Stone Curtain Wall is a perfect solution for the ground floor of any building. In addition, the color of the stone curtain wall is customizable, allowing for complete customisation to match the exterior design of any building.

Technical Parameters:

Material	Stone
Thermal Insulation	Excellent
Installation Method	Dry-hanging
Application	Exterior Wall
Design Style	Modern
Size	Customizable
Color	Customizable
Shape	Customizable
Maintenance	Low

Applications:

The Stone Curtain Wall is excellent for thermal insulation, making it a great choice for buildings that require energy efficiency. The natural stone material also provides an aesthetically pleasing appearance, adding a touch of elegance to any building. The color of the Stone Curtain Wall is customizable, allowing for a wide variety of options to match any building's design.

The Stone Curtain Wall is suitable for various application occasions and scenarios. It can be used in a commercial or residential setting, making it a versatile choice. The Curtain Wall is perfect for buildings situated in high wind areas, as the dry-hanging installation method ensures that the Slate stays in place even in the harshest conditions.

The MQ Stone Curtain Wall is an ideal choice for buildings that require a durable and long-lasting exterior. The natural stone material ensures that the Curtain Wall will last for years without showing any signs of wear and tear. Additionally, the excellent thermal insulation properties of the Curtain Wall make it a great choice for buildings that require energy efficiency.

In conclusion, GuangdongSuperHuge's MQ Stone Curtain Wall is a durable and energy-efficient solution for any building's exterior. With its dry-hanging installation method and customizable color options, it is a versatile choice that can be used in a variety of application scenarios.

Customization:

Customisation is available for the Stone Curtain Wall product by GuangdongSuperHuge. The model number for this product is MQ and it is made in China. The maintenance required for this product is low and the installation method is dry-hanging. The Stone Curtain Wall is suitable for exterior wall applications. The shape and size of the product are both fully customizable to meet your specific needs.

Support and Services:

The Stone Curtain Wall product technical support and services include:

- Comprehensive product documentation and installation instructions
- Consultation with experienced technical support team members
- On-site training and support for installation crews
- Regular maintenance and inspection services to ensure optimal performance
