#### Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: Aluminum
- Minimum Order Quantity: 100m<sup>2</sup>
- Price: 288-1088RMB/m<sup>2</sup>
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

#### Product Specification

- Application: Building Facade, Ventilation, Decoration
- Customization: Available
- Size: Customization
- Color: Customization
- Impact Resistance: Strong
- Corrosion Resistance: High
- Durability: Long-lasting
- Weather Resistance: Excellent
- Name: Aluminum Alloy Grille
- Highlight: **Corrosion Resistant Aluminum Grille,  
Building Facade Aluminum Grille Manufacturer**

## Product Description

### Strong Impact Resistance Aluminum Alloy Grille Customizable Color With Corrosion Resistance

#### Product Description:

Our grilles come in a rectangular shape as standard, but we also offer customization options to suit your specific project requirements. Whether you're looking to cover an entire building facade or simply add a decorative touch to your windows or balcony, our Aluminum Alloy Grille product offers a flexible solution that meets your needs.

One of the primary advantages of our Aluminum Alloy Grille product is its exceptional durability. Unlike other materials that may crack, warp, or degrade over time, our grilles are designed to withstand the harshest weather conditions and remain looking great for years to come. This makes them an ideal choice for use in outdoor applications, where exposure to the elements can be a challenge.

At the same time, our Aluminum Alloy Grille product is also incredibly lightweight, making it easy to install and handle. This means that you can cover large areas quickly and without the need for heavy machinery or equipment. Whether you're a contractor or a DIY enthusiast, our grilles are a smart choice that will save you time and effort.

Another key advantage of our Aluminum Alloy Grille product is its high resistance to corrosion. Aluminum is naturally resistant to rust and other forms of corrosion, which makes it an ideal material for use in environments that are exposed to moisture or salt. Whether you're installing our grilles near the coast or in a humid area, you can be confident that they will maintain their appearance and structural integrity over time.

In summary, our Aluminum Alloy Grille product is a top-quality solution for your Grille Curtain Wall, Aluminum Window Grilles, and Aluminum Balustrade needs. With its exceptional durability, flexible customization options, lightweight design, and high resistance to corrosion, our grilles are an excellent choice for any outdoor or indoor application. So why wait? Contact us today to learn more!

Surface Treatment	Powder Spraying/Fluorocarbon Spray
Size	Customization
Customization	Available
Shape	Rectangular/Customization
Material	Aluminum Alloy
Durability	Long-lasting
Lightweight	Yes
Application	Building Facade, Ventilation, Decoration

#### Applications:

One of the main applications of the MQ Aluminum Alloy Grille is in building facades. The grille can be used as a decorative element to add texture and depth to the building's exterior. It can also serve practical purposes such as providing ventilation and shading. The grille's surface treatment options, such as powder spraying or fluorocarbon spray, ensure that it can withstand harsh weather conditions and maintain its appearance over time.

Another application of the MQ Aluminum Alloy Grille is in ventilation systems. It can be used as a vent cover to allow air to flow in and out of a building while preventing debris and other unwanted objects from entering. Its screw fixing installation method makes it easy to install and replace.

The MQ Aluminum Alloy Grille can also be used for decoration purposes. It can be installed as an aluminum balustrade to enhance the aesthetic appeal of a staircase or balcony. Its customization option allows for various design possibilities, making it a flexible solution for any interior design project.

Lastly, the MQ Aluminum Alloy Grille can be used as an aluminum ceiling. Its lightweight nature makes it easy to install and maintain, while its material's durability ensures that it can withstand the wear and tear of daily use. Its surface treatment options also allow for various design possibilities, making it a popular choice for commercial and residential spaces.

In summary, GuangdongSuperHuge's MQ Aluminum Alloy Grille is a versatile product that can be used in building facades, ventilation

systems, decoration, and as an aluminum ceiling. Its material's durability, lightweight, and corrosion-resistant properties make it a reliable and long-lasting solution for any project. Its customization option also makes it a flexible choice that can fit any design preference.

### Customization:

Looking for customized Aluminum Window Grilles? Look no further than GuangdongSuperHuge's MQ model! Made in China, our grille offers excellent weather resistance and can be customized to any color of your choice. With a surface treatment of powder spraying or fluorocarbon spray, this grille is perfect for use in building facades, ventilation, and decoration. Installation is easy with screw fixing. Trust GuangdongSuperHuge for all your Aluminium Ceiling needs.
