

## Custom Industrial Steel Construction High Durability Corrosion Resistant

### Our Product Introduction

for more products please visit us on [glass-curtainwall.com](http://glass-curtainwall.com)

#### Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: GJG
- Minimum Order Quantity: 100m<sup>2</sup>
- Price: 388-1088RMB/m<sup>2</sup>
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

#### Product Specification

- Versatility: High
- Aesthetics: Modern
- Durability: High
- Material: Steel
- Feature: Earthquake-Resistance
- Main Steel: Q355-Q460/Special
- Corrosion Resistance: High
- Name: Steel Construction
- Highlight: **Industrial Steel Construction,  
Steel Construction High Durability,  
Custom Steel Construction Corrosion Resistant**

## Product Description

### Modern Industrial Steel Construction with Earthquake Resistance Corrosion Resistance and Versatility

#### Product Description:

Our steel construction products are made from high-quality materials, including Q355-Q460 steel and other special alloys, to ensure maximum durability and strength. In addition, our steel structures are designed to be earthquake-resistant, providing added peace of mind and safety for your business or organization.

Our custom steel fabrication service allows you to choose from a wide range of design options and specifications, ensuring that you get exactly what you need to meet your unique requirements. Whether you need a small steel structure for your warehouse or a large-scale industrial facility, we have the expertise and resources to deliver the perfect solution for your needs.

In addition to our custom steel fabrication service, we also offer a range of pre-engineered steel building options, including warehouses, industrial facilities, and more. These buildings are designed to be both durable and aesthetically pleasing, with modern design features and finishes that will complement any business or organizational setting.

So if you're looking for high-quality, custom steel fabrication services for your industrial steel structure needs, look no further than our expert team. With our years of experience and commitment to quality, we're confident that we can deliver the perfect solution for your needs.

#### Features:

Product Name: Steel Construction

Versatility: High

Durability: High

Aesthetics: Modern

Main Steel: Q355-Q460/Special

Material: Steel

Can be used for Commercial Steel Frame Building

Can be used for Industrial Steel Structure

Custom Steel Fabrication available

#### Technical Parameters:

Main Steel	Q355-Q460/Special
Feature	Earthquake-Resistance
Durability	High
Material	Steel
Aesthetics	Modern
Corrosion Resistance	High
Versatility	High

#### Applications:

With its modern aesthetic design, it is perfect for industrial steel construction. It can withstand harsh weather conditions and is perfect for both indoor and outdoor use.

The GJG Steel Construction product is also earthquake-resistant, making it the perfect choice for areas prone to earthquakes. It can withstand strong tremors, ensuring the safety of the people and properties inside.

The versatility of this product is also remarkable. It can be used in various applications, such as building frames, bridges, airports, and more. It is ideal for large structures that require heavy steel fabrication.

Overall, the GJG Steel Construction product from GuangdongSuperHuge is an excellent choice for those looking for a high-quality, modern, and versatile steel construction product. Its durability, aesthetics, and earthquake-resistant features make it a top choice for heavy steel fabrication and industrial steel construction.

#### Customization:

Customize your Industrial Steel Construction with our product customization services. Our GuangdongSuperHuge GJG model is designed and manufactured in China, ensuring high-quality production standards. The modern aesthetics of our steel construction products make them perfect for Commercial Steel Frame Building projects, while their durability and high corrosion resistance make them perfect for Heavy Duty Steel Structure applications. Additionally, our steel construction products are designed with Earthquake-Resistance features in mind, providing you with peace of mind and added safety. Trust our product customization services to tailor your steel construction product to your specific needs.

#### Support and Services:

Welcome to our Steel Construction product technical support and services page. Our team of experts is dedicated to providing you with the best support and service possible. Here are some of the technical support and services we offer:

Installation support and guidance

Product troubleshooting and issue resolution

Technical documentation and manuals

Product training and education

Warranty and maintenance support

If you have any questions or concerns regarding our Steel Construction product, please don't hesitate to contact us. Our team is available to assist you in any way we can.

## Packing and Shipping:

Product Packaging:

Steel beams and columns will be bundled together with steel straps.

All loose components will be packed in strong cartons with adequate cushioning material to prevent damage during transit.

All the components will be labeled clearly for easy identification.

Shipping:

Shipping will be arranged by our logistics team.

We will use trusted carriers to ensure timely and safe delivery.

We will provide a tracking number for your convenience.

Please inspect the package upon delivery and report any damages to us within 48 hours.

## FAQ:

### 1. What is the brand name of this steel construction product?

The brand name of this steel construction product is GuangdongSuperHuge.

### 2. What is the model number of this steel construction product?

The model number of this steel construction product is GJG.

### 3. Where is this steel construction product manufactured?

This steel construction product is manufactured in China.

### 4. What are the dimensions of this steel construction product?

The dimensions of this steel construction product vary depending on the specific application and design requirements. Please contact us for more information.

### 5. What types of projects is this steel construction product suitable for?

This steel construction product is suitable for a wide range of projects, including commercial buildings, industrial facilities, bridges, and more. Please contact us to discuss your specific project requirements.
