

Corrosion Resistance Q355-Q460 Steel Structure with Exceptional Earthquake Resistance

Our Product Introduction

for more products please visit us on glass-curtainwall.com

Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: GJG
- Minimum Order Quantity: 100m²
- Price: 388-1088RMB/m²
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Material: Steel
- Feature: Earthquake-Resistance
- Main Steel: Q355-Q460/Special
- Versatility: High
- Aesthetics: Modern
- Durability: High
- Corrosion Resistance: High
- Name: Steel Construction

Product Description

Product Description:

Our Steel Construction product boasts high Corrosion Resistance, ensuring that your building will remain strong and stable for years to come. This is especially important for commercial buildings that may be exposed to harsh weather or other corrosive elements. Not only is our Steel Construction product sturdy and reliable, it is also highly versatile. Whether you need a large warehouse or a small storefront, our product can be customized to fit your specific needs. With its modern aesthetics, our Steel Construction product is sure to impress and enhance the look of your building.

When it comes to commercial construction projects, having a reliable and durable building is crucial. Our Steel Construction product provides just that. With its Heavy Duty Steel Structure and high Corrosion Resistance, you can trust that your building will stand strong for years to come. Plus, its modern aesthetics make it a great addition to any commercial property.

Features:

Product Name: Steel Construction

Aesthetics: Modern

Main Steel: Q355-Q460/Special

Feature: Earthquake-Resistance

Durability: High

Material: Steel

Perfect for Commercial Steel Frame Building, Industrial Steel Structure, and Residential Steel Frame Building

Technical Parameters:

Feature	Earthquake-Resistance
Durability	High
Versatility	High
Main Steel	Q355-Q460/Special
Material	Steel
Aesthetics	Modern
Corrosion Resistance	High

Custom Steel Fabrication, Custom Steel Fabrication, Custom Steel Fabrication

Applications:

One of the key application occasions for this product is in the construction of large industrial buildings. Whether you are building a factory, warehouse, or other industrial facility, the GJG steel construction product is an excellent choice. Its high durability and earthquake-resistance make it ideal for withstanding the heavy loads and stresses that are common in these types of structures.

Another common scenario for this product is in the construction of large-scale infrastructure projects. For example, it could be used to build bridges, tunnels, or other transportation infrastructure. Its corrosion resistance and high durability make it well-suited for use in these types of applications, where it will be exposed to harsh environmental conditions and heavy use.

The GJG steel construction product is also a great choice for building large-scale commercial structures, such as shopping centers or office buildings. Its high strength and earthquake-resistance make it well-suited for these types of structures, which need to be able to withstand heavy use and potential seismic activity.

Overall, the GJG steel construction product from GuangdongSuperHuge is a versatile and reliable choice for any application that requires a heavy duty steel structure. Whether you are building an industrial facility, infrastructure project, or commercial building, this product is sure to meet your needs and exceed your expectations.

Customization:

Customize your Industrial Steel Structure with GuangdongSuperHuge's GJG model. Our product is made with high corrosion resistance steel, Q355-Q460/Special, sourced from China. With its high versatility and modern aesthetics, this steel structure is perfect for heavy steel fabrication needs.

Support and Services:

Our Steel Construction product comes with comprehensive technical support and services to ensure that your project is completed successfully. Our team of experts is available to assist you with:

Design and engineering support

Installation guidance and support

Maintenance and repair services

Technical documentation and training

We pride ourselves on providing top-notch customer service and support throughout the entire lifecycle of your project. Whether you need assistance with initial planning and design or ongoing maintenance and repairs, our team is here to help.

Packing and Shipping:

Product Packaging:

The Steel Construction product will be packaged securely in a wooden crate to prevent any damage during transportation. The crate will be sealed and labeled with the product name and specifications.

Shipping:

The Steel Construction product will be shipped via a reliable freight carrier. The shipping cost will be calculated based on the weight and dimensions of the crate. The estimated delivery time will depend on the destination and shipping method selected.

FAQ:

Q: What is the brand name of this steel construction product?

A: The brand name of this steel construction product is GuangdongSuperHuge.

Q: What is the model number of this steel construction product?

A: The model number of this steel construction product is GJG.

Q: Where is this steel construction product manufactured?

A: This steel construction product is manufactured in China.

Q: What are the dimensions of this steel construction product?

A: Please refer to the product specifications for the dimensions of this steel construction product.

Q: Is installation included with the purchase of this steel construction product?

A: Installation is not included with the purchase of this steel construction product. Please consult with a licensed contractor for installation services.
