

Corrosion Resistant Q355-Q460 Steel Construction with Superior Versatility

Our Product Introduction

for more products please visit us on glass-curtainwall.com

Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: GJG
- Minimum Order Quantity: 100m²
- Price: 388-1088RMB/m²
- Packaging Details: Wooden Box/Completely sealed wooden box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Durability: High
- Main Steel: Q355-Q460/Special
- Feature: Earthquake-Resistance
- Versatility: High
- Aesthetics: Modern
- Material: Steel
- Corrosion Resistance: High
- Name: Steel Construction
- Highlight: **Corrosion Resistant Q460 Steel Construction,**
Corrosion Resistant Q355 Steel Construction

Product Description

Product Description:

Features:

Product Name: Steel Construction
Durability: High
Main Steel: Q355-Q460/Special
Corrosion Resistance: High
Material: Steel
Feature: Earthquake-Resistance
Custom Steel Fabrication
Heavy Steel Fabrication
Custom Steel Fabrication

Technical Parameters:

Attribute	Value
Product Type	Heavy Steel Fabrication, Commercial Steel Frame Building, Heavy Duty Steel Structure
Corrosion Resistance	High
Versatility	High
Durability	High
Aesthetics	Modern
Main Steel	Q355-Q460/Special
Material	Steel
Feature	Earthquake-Resistance

Applications:

One of the primary applications of this steel construction product is in the building of high-rise buildings and skyscrapers. The GJG Steel Construction product is engineered to withstand the forces generated by earthquakes, making it an ideal choice for buildings located in seismic zones. Additionally, its modern aesthetic design ensures that it blends seamlessly with the surrounding urban landscape. Another application of the GJG Steel Construction product is in the construction of large industrial facilities such as factories, warehouses, and power plants. These structures require heavy-duty steel structures that can withstand the rigors of daily use and harsh weather conditions. The corrosion-resistant properties of the GJG Steel Construction product ensure that the structure remains intact and functional for years to come.

The GJG Steel Construction product is also ideal for the construction of bridges and other transportation infrastructure. Bridges require high-strength and corrosion-resistant steel structures to ensure that they can safely carry heavy loads and withstand the elements. The GJG Steel Construction product meets these requirements and ensures that the bridge remains functional for many years. In summary, GuangdongSuperHuge's GJG Steel Construction product is an essential building material for anyone looking to construct heavy-duty and industrial steel structures. Its durability, corrosion resistance, and earthquake-resistant features make it ideal for high-rise buildings, large industrial facilities, and transportation infrastructure such as bridges. Make sure to choose the GJG Steel Construction product for your next project.

Customization:

At GuangdongSuperHuge, we offer custom steel fabrication services for our GJG model industrial steel construction product. Our steel construction product is designed and manufactured in China, and boasts a modern aesthetic that can be customized to suit your specific needs and preferences.

Our industrial steel construction product is not only visually appealing, but it also offers high versatility, durability, and corrosion resistance. Additionally, our GJG model features earthquake-resistance technology to ensure your safety and peace of mind. With our custom steel fabrication services, you can personalize your industrial steel construction product to fit your unique project requirements. Contact us today to learn more.

Support and Services:

Our Steel Construction product comes with comprehensive technical support and services to ensure the best performance and longevity of your building. Our team of experts is available to provide guidance on design, installation, and maintenance of the steel components and system. We also offer on-site consultations and inspections to ensure compliance with local regulations and standards. In addition, we provide training and educational resources to help you get the most out of your steel building. Our commitment to customer

satisfaction means we are always available to answer any questions or concerns you may have about our product.

Packing and Shipping:

Product Packaging:

The steel construction product will be packed securely in a sturdy cardboard box to prevent any damage during shipping.

The box will be labeled with the product name and other necessary information.

Inside the box, the product will be wrapped in protective material such as bubble wrap or foam to ensure it arrives in perfect condition.

Shipping:

The steel construction product will be shipped via a reputable carrier to ensure timely and secure delivery.

Shipping costs will be calculated based on the size and weight of the product, as well as the destination.

A tracking number will be provided so that the customer can track the shipment and know exactly when to expect delivery.

FAQ:

What is the brand name of the steel construction product?

The brand name of the steel construction product is GuangdongSuperHuge.

What is the model number of the steel construction product?

The model number of the steel construction product is GJG.

Where is the steel construction product manufactured?

The steel construction product is manufactured in China.

What are the dimensions of the steel construction product?

The dimensions of the steel construction product vary depending on the specific model. Please refer to the product specifications for accurate dimensions.

What is the weight capacity of the steel construction product?

The weight capacity of the steel construction product varies depending on the specific model. Please refer to the product specifications for accurate weight capacity.
