Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 580RMB
- Packaging Details: Wooden Box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Function: Soundproof ,Adjust The Light
- Aluminium Color: Any Color
- Aesthetics: Sleek And Modern
- Heat Insulation: Yes
- Patterns Selection: Customized Design Available
- Advantage: Waterproof, Soundproof, Energy Saving
- Durability: Long-lasting
- Protection: Thermal Insulation
- Highlight: **Thermal Insulation Protection Glass Curtain Wall**
, Aluminium Glass Curtain Wall,
Customized Glass Curtain Wall

Product Description:

The Glass Curtain Wall is a cutting-edge architectural product that offers a perfect blend of functionality and aesthetics. Known for its sleek and modern design, the Glass Curtain Wall provides buildings with a contemporary look while offering exceptional protection and energy efficiency.

One of the key features of the Glass Curtain Wall is its superior thermal insulation properties. By effectively regulating heat transfer, this product helps in maintaining a comfortable indoor environment, reducing the reliance on heating and cooling systems, thus leading to energy savings.

When it comes to aesthetics, the Glass Curtain Wall stands out for its sleek and modern appearance. It adds a touch of elegance to any building, making it a popular choice for modern architectural designs. The customizable design options allow for a wide range of patterns and styles, ensuring that the Glass Curtain Wall can be tailored to suit the unique preferences of each project.

Moreover, the Glass Curtain Wall offers a range of advantages that make it a preferred choice for many architects and building owners. Its waterproof properties ensure that buildings remain protected from water damage, while its soundproofing capabilities help in creating a peaceful indoor environment. Additionally, the Glass Curtain Wall is known for its energy-saving benefits, contributing to a more sustainable building design.

Another important aspect of the Glass Curtain Wall is its durability. Built to last, this product is designed to withstand various weather conditions and environmental factors, ensuring that it maintains its quality and performance over the long term.

In conclusion, the Glass Curtain Wall is a versatile and high-performance architectural product that offers a perfect combination of protection, aesthetics, and functionality. With its thermal insulation properties, sleek design, customizable patterns, waterproofing, soundproofing, energy-saving features, and long-lasting durability, the Glass Curtain Wall is a top choice for modern building projects.

Features:

Product Name: Glass Curtain Wall

Panel Thickness: 1.4~5.0mm

Aesthetics: Sleek And Modern

Heat Insulation: Yes

Function: Soundproof, Adjust The Light

Aluminium Color: Any Color

Technical Parameters:

Patterns Selection	Customized Design Available
Protection	Thermal Insulation
Durability	Long-lasting
Aesthetics	Sleek And Modern
Heat Insulation	Yes
Function	Soundproof ,Adjust The Light
Aluminium Color	Any Color
Advantage	Waterproof, Soundproof, Energy Saving
Panel Thickness	1.4~3.0mm

Applications:

Product Application Occasions and Scenarios for the Glass Curtain Wall product by GuangdongSuperHuge (Model: MQ) from China:

The Glass Curtain Wall by GuangdongSuperHuge is a versatile and modern architectural solution suitable for a wide range of applications. With its sleek and modern aesthetics, this product is perfect for enhancing the visual appeal of various buildings and structures.

Whether it is a commercial office building, a residential complex, a shopping mall, or a hotel, the Glass Curtain Wall can be used to create a stunning exterior facade that exudes elegance and sophistication. Its customizable design options allow for unique patterns and configurations to be tailored to suit the specific requirements of each project.

One of the key attributes of the Glass Curtain Wall is its thermal insulation properties, providing protection against heat loss and ensuring energy efficiency. This makes it ideal for buildings where maintaining a comfortable indoor temperature is crucial.

Furthermore, the Glass Curtain Wall offers additional benefits such as waterproofing, soundproofing, and energy-saving features. With certifications including CE and ISO, customers can trust in the quality and performance of this product.

With a minimum order quantity of 100m² and a price of 580RMB per unit, the Glass Curtain Wall is a cost-effective solution for large-scale projects. The packaging details in a wooden box ensure safe transportation and delivery within 20-60 working days.

Payment terms for the Glass Curtain Wall include T/T, providing convenience and flexibility for customers. Overall, the Glass Curtain Wall by GuangdongSuperHuge is a premium product that combines functionality with aesthetics, making it the perfect choice for a wide range of architectural projects.
