Product Description

Durable Photovoltaics Curtain Wall Frame Supported Glass Curtain Wall

Attribute	Value
Heat Insulation	Yes

Advantage	Waterproof, Soundproof, Energy Saving
Durability	Long-lasting
Aluminium Color	Customizable Color
Protection	Thermal Insulation
Panel Thickness	1.4~3.0mm
Patterns Selection	Customized Design Available
Aesthetics	Sleek And Modern

Product Overview

The Glass Curtain Wall is a versatile architectural solution combining modern aesthetics with functional performance. Engineered for both commercial and residential applications, it offers superior durability, thermal insulation, and customizable design options.

Key Features

- High-quality construction with panel thickness ranging from 1.4 to 3.0mm
- Excellent thermal insulation properties for improved energy efficiency
- Customizable patterns and aluminum colors to match architectural requirements
- Sleek, modern appearance enhancing building aesthetics
- Waterproof and soundproof characteristics
- Long-lasting durability for sustained performance

Applications

This curtain wall system is ideal for:

- **Commercial Buildings:** Office complexes, shopping malls, and hotels benefiting from soundproofing and light adjustment
- **Residential Buildings:** Enhancing facades while providing energy-efficient thermal insulation
- **Educational Facilities:** Creating conducive learning environments with soundproofing
- **Healthcare Institutions:** Maintaining hygienic conditions with waterproof and soundproof properties
