Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 580RMB
- Packaging Details: Wooden Box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Protection: Thermal Insulation
- Durability: Long-lasting
- Panel Thickness: 1.4~3.0mm
- Heat Insulation: Yes
- Aluminium Color: Customizable Color
- Function: Soundproof ,Adjust The Light
- Advantage: Waterproof, Soundproof, Energy Saving
- Aesthetics: Sleek And Modern
- Highlight: 1.4-3.0mm glass curtain wall,
thermal insulation glass wall,
panel thickness curtain wall

Product Description

Product Description:

Durability is a key feature of the Glass Curtain Wall, making it a long-lasting investment for any project. Constructed with high-quality materials and expert craftsmanship, this product is designed to withstand the test of time and maintain its structural integrity even in harsh weather conditions.

One of the standout features of the Glass Curtain Wall is the ability to customize the design with a wide selection of patterns. Whether you are looking for a sleek and minimalistic look or a bold and intricate design, the customization options available for the Glass Curtain Wall allow you to create a unique and personalized facade for your building.

In addition to its durability and customizable design, the Glass Curtain Wall also offers excellent heat insulation properties. The panel thickness of 1.4~3.0mm provides effective thermal insulation, helping to regulate the temperature inside the building and reduce energy costs.

Thermal insulation is a critical aspect of building design, and the Glass Curtain Wall excels in this area, providing protection against heat loss and maintaining a comfortable indoor environment throughout the year. Whether you are located in a cold climate or a hot and humid region, the Glass Curtain Wall helps to create a more energy-efficient building.

In conclusion, the Glass Curtain Wall is a premium architectural product that combines durability, customizable design options, heat insulation, and thermal protection. With its modern and elegant appearance, this product is a versatile choice for a wide range of building projects, from office towers to residential complexes. Invest in the Glass Curtain Wall to enhance the visual appeal and functionality of your building while enjoying the long-lasting benefits of this high-quality architectural solution.

Features:

Product Name: Glass Curtain Wall

Function: Soundproof, Adjust The Light

Advantage: Waterproof, Soundproof, Energy Saving
