Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 580RMB
- Packaging Details: Wooden Box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Heat Insulation: Yes
- Panel Thickness: 1.4~3.0mm
- Advantage: Waterproof, Soundproof, Energy Saving
- Aesthetics: Sleek And Modern
- Aluminium Color: Customizable Color
- Function: Soundproof ,Adjust The Light
- Protection: Thermal Insulation
- Patterns Selection: Customized Design Available
- Highlight: customizable color glass curtain wall,
thermal insulation glass curtain wall,
aluminium performance glass curtain wall

Product Description:

The Glass Curtain Wall is a modern and stylish architectural feature that enhances the aesthetics of any building. This product is designed to provide both functionality and beauty, making it a popular choice for commercial and residential properties alike. One of the key features of the Glass Curtain Wall is its sleek and modern design, which adds a sophisticated touch to any structure. The panels are available in various thicknesses, ranging from 1.4mm to 3.0mm, allowing for customization based on the specific requirements of the project.

Another advantage of the Glass Curtain Wall is its customizable aluminum color. This feature enables architects and designers to create a unique look that complements the overall design of the building. Whether you prefer a bold and vibrant color or a more subtle and understated hue, the possibilities are endless.

When it comes to performance, the Glass Curtain Wall excels in several areas. It is waterproof, ensuring that the interior of the building remains protected from the elements. Additionally, the soundproofing properties of the Glass Curtain Wall help create a peaceful and quiet environment inside the building.

Energy efficiency is another important factor to consider when choosing a building material. The Glass Curtain Wall is designed to provide excellent heat insulation, helping to reduce energy costs and create a comfortable indoor environment year-round.

In conclusion, the Glass Curtain Wall is a versatile and practical choice for any construction project. Its sleek design, customizable features, and performance advantages make it an ideal solution for architects and builders looking to create modern and efficient buildings.

Features:

Product Name: Glass Curtain Wall

Aesthetics: Sleek And Modern

Patterns Selection: Customized Design Available

Panel Thickness: 1.4~3.0mm

Heat Insulation: Yes

Function: Soundproof, Adjust The Light

Technical Parameters:

Aesthetics	Sleek And Modern
Heat Insulation	Yes
Panel Thickness	1.4~3.0mm
Advantage	Waterproof, Soundproof, Energy Saving
Aluminium Color	Customizable Color
Patterns Selection	Customized Design Available
Durability	Long-lasting
Protection	Thermal Insulation
Function	Soundproof, Adjust The Light

Applications:

Product Application Occasions and Scenarios for the **GuangdongSuperHuge MQ Glass Curtain Wall** :

The **Glass Curtain Wall** by **GuangdongSuperHuge** is a versatile and modern architectural solution that is suitable for a wide range of application occasions and scenarios due to its exceptional attributes.

Originating from **China** , this **Glass Curtain Wall** is designed to meet high standards, holding **CE** and **ISO** certifications to ensure quality and reliability.

With a minimum order quantity of **100m²** and a competitive price of **580RMB** , this product is an excellent choice for commercial and residential projects.

The **Glass Curtain Wall** is carefully packaged in wooden boxes for secure transportation, and the delivery time ranges from **20-60 work days** , making it convenient for project timelines.

Customers can enjoy flexible payment terms such as **T/T** , adding to the convenience of procuring this product.

One of the key advantages of this **Glass Curtain Wall** is its excellent heat insulation properties, ensuring energy efficiency and comfort within buildings.

In addition to heat insulation, this product is also **waterproof** , **soundproof** , and **energy-saving** , providing a comprehensive solution for various environmental challenges.

Customers have the option to choose from a range of patterns or opt for **customized designs** , allowing for personalization to suit specific project requirements.

The aesthetics of the **Glass Curtain Wall** are sleek and modern, enhancing the overall appearance of any building and adding a touch of sophistication to the architecture.
