Soundproof Glass Curtain Wall in Customizable Color for Superior and Durable Building Solutions

Our Product Introduction

for more products please visit us on glass-curtainwall.com

Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 580RMB
- Packaging Details: Wooden Box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Patterns Selection: Customized Design Available
- Function: Soundproof ,Adjust The Light
- Durability: Long-lasting
- Aluminium Color: Customizable Color
- Aesthetics: Sleek And Modern
- Advantage: Waterproof, Soundproof, Energy Saving
- Protection: Thermal Insulation
- Heat Insulation: Yes
- Highlight: **soundproof glass curtain wall,
customizable color glass curtain,
durable building glass wall**

Product Description:

The Glass Curtain Wall is a cutting-edge architectural solution that combines style, functionality, and durability to create stunning building facades. This innovative product is designed to enhance the aesthetics of any structure while providing exceptional performance in terms of soundproofing, light adjustment, thermal insulation, and heat insulation.

One of the key features of the Glass Curtain Wall is its superior soundproofing capabilities. The panels are constructed with precision and high-quality materials to effectively block out external noise, creating a peaceful and quiet indoor environment. Whether installed in a commercial building, residential complex, or office space, the Glass Curtain Wall ensures a serene atmosphere for occupants.

Another remarkable attribute of the Glass Curtain Wall is its ability to adjust the light entering a building. The panels are designed to control the amount of natural light that penetrates through, allowing for optimal lighting conditions inside the structure. This feature not only enhances the visual appeal of the interior space but also contributes to energy efficiency by reducing the need for artificial lighting.

With a panel thickness ranging from 1.4mm to 3.0mm, the Glass Curtain Wall offers a perfect balance of strength and elegance. The slim profile of the panels adds a modern touch to the building facade, creating a sleek and sophisticated look. Despite its slim design, the Glass Curtain Wall is highly durable and long-lasting, ensuring that it withstands the test of time and maintains its integrity for years to come.

In addition to its aesthetic and functional benefits, the Glass Curtain Wall provides exceptional thermal insulation properties. The panels are engineered to minimize heat transfer, helping to maintain a comfortable indoor temperature throughout the year. By reducing heat loss in the winter and heat gain in the summer, the Glass Curtain Wall contributes to energy savings and promotes sustainability in building design.

Overall, the Glass Curtain Wall is a versatile and innovative product that brings together style, functionality, and durability in one complete package. Whether you are looking to enhance the architectural appeal of a new construction project or upgrade the facade of an existing building, the Glass Curtain Wall is the ideal solution. With its soundproofing capabilities, light adjustment features, thermal insulation properties, and long-lasting durability, this product offers a comprehensive solution for modern building design.

Features:

Product Name: Glass Curtain Wall

Heat Insulation: Yes

Durability: Long-lasting

Aesthetics: Sleek And Modern

Advantage: Waterproof, Soundproof, Energy Saving

Patterns Selection: Customized Design Available

Technical Parameters:

Protection	Thermal Insulation
Heat Insulation	Yes
Aesthetics	Sleek And Modern
Panel Thickness	1.4~3.0mm
Function	Soundproof, Adjust The Light
Advantage	Waterproof, Soundproof, Energy Saving
Durability	Long-lasting
Aluminium Color	Customizable Color
Patterns Selection	Customized Design Available

Applications:

Product Application Occasions and Scenarios for the Glass Curtain Wall:

GuangdongSuperHuge Glass Curtain Wall (Model: MQ) is a versatile and stylish architectural product that is ideal for various application occasions and scenarios due to its sleek and modern design combined with exceptional functionality.

Originating from China, this Glass Curtain Wall is designed to meet the highest standards of quality and performance, holding certifications such as CE and ISO.

With a minimum order quantity of 100m² and a competitive price of 580RMB, this product is suitable for both small-scale and large-scale projects.

The Glass Curtain Wall is packaged securely in wooden boxes to ensure safe delivery, with an average delivery time of 20-60 work days. Payment terms are flexible, allowing for transactions through T/T.

One of the key features of this Glass Curtain Wall is its thermal insulation properties, providing protection against heat loss and external temperature fluctuations.

Featuring panel thickness ranging from 1.4mm to 3.0mm, this product offers enhanced durability and structural integrity.

In addition to thermal insulation, the Glass Curtain Wall offers other advantages such as being waterproof, soundproof, and energy-saving, making it a practical choice for various environments.

Common application occasions for the Glass Curtain Wall include commercial buildings, office complexes, residential towers, shopping malls, and hotels.

Whether used for new construction projects or building renovations, the GuangdongSuperHuge Glass Curtain Wall enhances the aesthetics of any space while providing functional benefits.
