Our Product Introduction

for more products please visit us on glass-curtainwall.com

Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 580RMB
- Packaging Details: Wooden Box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Advantage: Waterproof, Soundproof, Energy Saving
- Durability: Long-lasting
- Patterns Selection: Customized Design Available
- Aluminium Color: Customizable Color
- Protection: Thermal Insulation
- Function: Soundproof ,Adjust The Light
- Heat Insulation: Yes
- Panel Thickness: 1.4~3.0mm
- Highlight: customizable glass curtain wall,
thermal insulation glass wall,
custom design glass curtain

Product Description:

The Glass Curtain Wall is a cutting-edge architectural product that offers innovative design solutions for modern buildings. With its customizable aluminum color options, sleek and modern aesthetics, and customized pattern selection, this product is a versatile choice for architects and designers looking to make a bold statement.

One of the key features of the Glass Curtain Wall is its customizable aluminum color, allowing for seamless integration with any design scheme. Whether you prefer a classic silver finish or a vibrant custom color, the Glass Curtain Wall can be tailored to meet your specific aesthetic preferences.

When it comes to aesthetics, the Glass Curtain Wall truly stands out with its sleek and modern design. The clean lines and minimalistic approach of this product create a sophisticated look that complements contemporary architectural styles. Whether used in commercial buildings, residential projects, or public spaces, the Glass Curtain Wall adds a touch of elegance and sophistication.

In addition to its customizable aluminum color and sleek aesthetics, the Glass Curtain Wall also offers a wide range of pattern selection options. Architects and designers can work with manufacturers to create customized designs that suit the unique requirements of their projects. Whether you want a bold geometric pattern, a subtle textured finish, or a combination of different elements, the Glass Curtain Wall can be tailored to bring your vision to life.

Durability is another important attribute of the Glass Curtain Wall. Constructed from high-quality materials and engineered to withstand the elements, this product is built to last. Its long-lasting performance ensures that your building will maintain its striking appearance for years to come, making it a wise investment for any project.

One of the key benefits of the Glass Curtain Wall is its heat insulation properties. By incorporating energy-efficient glazing systems and advanced insulation materials, this product helps to regulate indoor temperatures and reduce heating and cooling costs. This not only creates a more comfortable indoor environment but also contributes to sustainable building practices.

In conclusion, the Glass Curtain Wall is a versatile and innovative architectural product that offers a range of benefits for modern building projects. With its customizable aluminum color, sleek aesthetics, customized pattern selection, durability, and heat insulation capabilities, this product is a top choice for architects and designers looking to push the boundaries of design. Whether used in commercial, residential, or public buildings, the Glass Curtain Wall makes a bold statement and enhances the overall look and performance of any project.

Features:

- Product Name: Glass Curtain Wall
- Protection: Thermal Insulation
- Patterns Selection: Customized Design Available
- Heat Insulation: Yes
- Aluminium Color: Customizable Color
- Advantage: Waterproof, Soundproof, Energy Saving

Technical Parameters:
