

Customizable Color Glass Curtain Wall with Sleek Modern Aesthetics and 1.4-3.0mm Panel Thickness for Adjustable Light Control

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: GuangdongSuperHuge
- Certification: CE,ISO
- Model Number: MQ
- Minimum Order Quantity: 100m²
- Price: 580RMB
- Packaging Details: Wooden Box
- Delivery Time: 20-60work days
- Payment Terms: T/T

Product Specification

- Patterns Selection: Customized Design Available
- Function: Soundproof ,Adjust The Light
- Aesthetics: Sleek And Modern
- Protection: Thermal Insulation
- Durability: Long-lasting
- Panel Thickness: 1.4~3.0mm
- Advantage: Waterproof, Soundproof, Energy Saving
- Heat Insulation: Yes
- Highlight: **1.4-3.0mm Panel Thickness Glass Curtain Wall,
Sleek Modern Aesthetics Aluminum Glass
Curtain Wall
, Adjustable Light Glass Curtain Wall**

Product Description

Customizable Color Glass Curtain Wall Sleek And Modern Aesthetics 1.4-3.0mm Panel Thickness

Product Description

The Glass Curtain Wall is a revolutionary architectural product that combines functionality and style in a seamless manner. With its sleek and modern aesthetics, this product is designed to elevate the appearance of any building while providing essential features such as heat insulation and customizable options.

One of the key highlights of the Glass Curtain Wall is its exceptional heat insulation properties. This feature is essential in maintaining a comfortable indoor environment by reducing heat transfer between the interior and exterior spaces. The Glass Curtain Wall effectively blocks out external heat during hot weather, helping to keep the interior cool and comfortable. Similarly, during colder seasons, it helps to retain heat inside the building, ensuring energy efficiency and cost savings.

Aside from its functional benefits, the Glass Curtain Wall is also a design statement in itself. Its sleek and modern aesthetics add a touch of sophistication to any architectural design, making it a popular choice for contemporary buildings. The customizable aluminum color options further enhance its visual appeal, allowing architects and designers to create unique and eye-catching facades that stand out from the crowd.

When it comes to durability and performance, the Glass Curtain Wall excels in every aspect. The panels are designed with a thickness ranging from 1.4mm to 3.0mm, providing a sturdy and reliable barrier against external elements. This thickness ensures that the Glass Curtain Wall is not only aesthetically pleasing but also robust and long-lasting.

Another key advantage of the Glass Curtain Wall is its multi-functional nature. In addition to heat insulation, it offers a range of other benefits that contribute to the overall comfort and efficiency of a building. The waterproof feature ensures that the interior remains dry and protected from moisture infiltration, while the soundproofing properties help to create a peaceful and quiet environment inside. Furthermore, the Glass Curtain Wall is energy-saving, making it an environmentally friendly choice for sustainable construction projects.

Features

- **Product Name:** Glass Curtain Wall
- **Heat Insulation:** Yes
- **Aluminium Color:** Customizable Color
- **Patterns Selection:** Customized Design Available
- **Advantage:** Waterproof, Soundproof, Energy Saving
- **Panel Thickness:** 1.4~3.0mm
